EIGHTEENTH ANNUAL REPORT

OF THE

# STATE BOARD OF HEALTH

OF THE

## STATE OF ILLINOIS.

[BEING FOR THE YEAR ENDED DECEMBER 31, 1895.]

---

WITH AN APPENDIX

CONTAINING

The Official Register of Physicians and Midwives 1896.

---

SPRINGFIELD, ILL.:  
ED. F. HARTMAN, STATE PRINTER.  
1896.

ILLINOIS STATE BOARD OF HEALTH.

---

*To His Excellency, JOHN P. ALTGELD, Governor:*

SIR:—In conformity with the Twelfth Section of the Act to Create and Establish a Board of Health in the State of Illinois, approved May 25, 1877, I have the honor to submit to you the accompanying report for the year ended December 31, 1895.

Very respectfully

J. W. SCOTT, M. D.,

*Secretary.*

## MEMBERS AND OFFICERS OF THE BOARD—1895.

---

OSCAR O. BAINES, M. D., Chicago.

JULIUS KOHL, M. D., Belleville.

WILLIAM E. QUINE, M. D., Chicago, *President*.

JOHN A. VINCENT, M. D., Springfield.

GEORGE THILO, M. D., Chicago.

B. M. GRIFFITH, Springfield, *Treasurer*.

SARAH HACKETT STEVENSON, M. D., Chicago.

J. W. SCOTT, M. D., Springfield, *Secretary*.

ABSTRACT OF THE PROCEEDINGS  
OF THE  
ILLINOIS STATE BOARD OF HEALTH  
AT ITS  
MEETINGS DURING THE YEAR 1895.

---

ANNUAL MEETING, SPRINGFIELD, JANUARY, 1895.

---

The Eighteenth Annual Meeting of the State Board of Health of the State of Illinois was held in the office of the Board in the Capitol at Springfield on Thursday, the 20th day of January, 1885.

The Board met in regular session at 10:00 a. m., with Wm. E. Quine, M. D., President of the Board, in the chair. Members present: Drs. Julius Kohl, John A. Vincent, George Thilo, B. M. Griffith and the Secretary, John W. Scott, M. D.

The minutes of the October, 1894, meeting having been read and approved, the following quarterly report of the Secretary for the quarter ended December 31st, 1894, was read and adopted.

SECRETARY'S REPORT, FOR THE QUARTER ENDED JAN. 2, 1895:

Your Secretary begs leave to submit the following report of the work done in the office during the quarter from October 1. 1894. to January 2, 1895:

## OFFICE WORK.

*Certificates issued:*

During the period October 1st, 1894, to January 1st, 1895, 99 certificates were issued entitling to practice medicine and surgery; 94 being based upon diplomas unconditionally recognized as in "good standing," three upon the applicants having passed the supplemental examination required of graduates of schools which do not fully comply with this Board's schedule of minimum requirements.

Nine supplemental examinations have been conducted in the office by the Secretary. Three successfully passed and were granted certificates; six failed and their applications were rejected.

Five applicants presented themselves at the non-graduate examination held during the last meeting. Two received the percentage required and were granted certificates.

One duplicate certificate was issued, the applicant having filed satisfactory proof of the loss or destruction of his original certificate.

Twenty-one certificates were issued to midwives and one duplicate.

*Correspondence:*

Fourteen hundred and eighty-three written communications were received; 1,175 were sent out; 2,208 reports of the Board of different years were distributed, together with 1,505 preventable disease circulars and 1,500 personal vaccination certificates.

Concerning small-pox in Chicago, during 1894, the Commissioner of Health in his annual report will say:

"A total of 3,062 cases of small-pox, with 1,029 deaths, during the year. is the lesson of neglected vaccination. Almost exactly 45 per cent.—that is to say 1,378—of the whole number of cases, showed no evidence of vaccination, and of this number 209, or more than 65 per cent., died. The average mortality of all cases vaccinated and unvaccinated, was 33.6 per cent.; but of those who exhibited some evidence of vaccination, only 127, or 6.8 per cent., died, and 1,557, or more than 93 per cent., recovered.

"The origin of the outbreak has been already fully recounted in the annual report of the Department for the year 1893. Repeated introductions of the contagion during the World's Fair period, failure of the attending physicians to recognize promptly the true character of some of the early cases and the diffusion of the contagions from undetected mild cases, the suppression of reports of cases, both wilfully and accidentally, the overcrowded condition of lodging-houses and cheap hotels, in the poorer districts of the city, by multitudes of the unemployed during the winter and spring, and wholly inadequate hospital facilities, were among the principal causes of the spread of the disease during the early months of the year.

"But as the outbreak and spread of the disease and the large number of cases are the lesson of neglected vaccination, the present status of the disease may be accounted among the triumphs of Jenner's immortal discovery. Realizing that wholesale vaccination was the most available and effective method of combatting the outbreak, every effort has been made

to secure the vaccinal protection of the entire community, and the extent of the effect may be measured by the number of vaccine points—1,069,500—used during the year.

“A most signal illustration of cause and effect is shown in the following figures: Death from small-pox, January, 29; February, 55; March, 100; April, 157; May, 253. Up to the first of May 246,000 vaccine points had been used, the number being limited by the obtainable supply: but, as the result of special effort and appeal, in April the supply was largely increased and 586,000 vaccinations were performed in May, during which the number of deaths reached 253. In June the mortality fell to 171, in July to 51, and continued the rest of the year as follows: August, 53; September, 31; October, 40; November, 51; December, 38. The outbreak is practically under control, and the most important agency has been this wholesale vaccination, which has reduced the number of those susceptible to small-pox to a minimum.

“Since prompt isolation of every case as it occurs, is only less important than wholesale vaccination in dealing with an outbreak of small-pox, it is to be hoped that the experience of 1894 will result in securing a ‘safe and proper’ hospital for the city of Chicago, in which all victims of the disease in the future may be at once received under the best attainable conditions of comfort, trained nursing and skillful medical attendance for themselves and security against spreading the pestilence among others.”

A detailed report of this epidemic in Chicago will be found in the annual report of the Department of Health for the year ended December 31st, 1894.

Small-pox was widespread on the American continent during 1894, and appeared in almost every state in the Union, although in none did it assume the proportions of the last small-pox epidemic, that of 1881-83. It appears to be more widely diffused in Pennsylvania, Michigan and Wisconsin than in any other States, but this may be due to the greater fullness of the reports of the secretaries of the state boards of health of these States.

During the closing months of the year, the disease was still reported in Connecticut, District of Columbia, Illinois, Indiana, Michigan, New Jersey, New York, Ohio, Pennsylvania and Wisconsin. In the two cities most seriously affected during the year, viz.: Chicago and Milwaukee, a marked reduction is shown in December as compared with the previous month—there being but 46 cases in the municipal hospital in Chicago December 26th, as against 64 November 26th, and 83 as against 106 on corresponding dates in Milwaukee.

Regarding small-pox in the State outside of Chicago, tabulated statements have been presented of the cases occurring up to the 26th of June, and from that date to October 1st, during the period from October 1st to December 31st, small-pox has been reported from only five points—Sandwich, Aurora, La Grange, Alton and Joliet, with a total of 25 cases and 9 deaths. Of these, 15 cases occurred at Sandwich, with 5 deaths. A complete report of the outbreak is on file in the office, showing that the spread of the disease was unavoidable on the part of the local board, as the disease was introduced by a family from Milwaukee bringing a child sick with small-

pox into a large double house. No physician was called until one hour before the death of the child, fifteen days after its arrival. Meanwhile many people were exposed. The most stringent measures were at once adopted. All exposed were located and quarantined; every person in the city was vaccinated, with the result that but two cases occurred outside of the house infected—the one a barber who had shaved the father of the child, the other the manner of whose infection could not be ascertained. Of the five cases that died, but one showed any evidence of ever having been vaccinated, and he, an adult, in early infancy. Of the ten who recovered, all had been successfully vaccinated. The liberal policy adopted by the authorities of Sandwich and the promptness and efficiency of J. C. Converse, the health officer, cannot be too highly commended. At the other points where the disease appeared it was confined to the point of infection.

Other communicable diseases have been reported as follows:

#### *Diphtheria:*

Diphtheria from Abingdon, Knox county; Beason, Logan county; Burnt Prairie, White county; Chebanse, Iroquois county; Ellis Grove, Randolph county; Granville, Putnam county; Hamilton, Hancock county; Kankakee, Kankakee county; near Kaskaskia, Randolph county; Larkinsburg Township, Clay county; Metropolis, Massac county; Modoc, Randolph county; Pekin, Tazewell county; Pontoosuc, Hancock county; Staunton, Macoupin county; Springfield, Sangamon county; Streator, LaSalle county; and from Hardin county.

#### *Scarlet Fever:*

Scarlet fever from Barry, Pike county; Beason, Logan county; Chenoa, McLean county; Clayton, Adams county; Farmington, Fulton county; Levee Township, Pike county; O'Fallon, St. Clair county; Paris, Edgar county; Pekin, Tazewell county; Springfield, Sangamon county; Hamilton, Hancock county.

#### *Typhoid Fever:*

Typhoid fever from Atlanta, Logan county; Barry, Pike county; Beason, Logan county; Canton, Fulton county; Elizabethtown, Hardin county; Pekin, Tazewell county; Quincy, Adams county, and Springfield, Sangamon county.

It will be observed that the number of localities reporting the existence of infectious diseases during this quarter is largely in excess of any previous quarter during the past two years. It does not necessarily follow that the diseases have been more prevalent nor that more localities have been invaded, nor is it to be assumed that all localities so invaded have made reports. It merely shows that good results have been accomplished by the Board in its efforts to secure coöperation of local boards. That the holding of sanitary conventions and placing in the hands of all health officers reports of

their proceedings have stimulated the local officers and aroused interest in sanitary work which gives promise that when a complete organization shall have been effected complete and valuable reports will be obtained from all portions of the State.

In accordance with the recommendations made by the Auxiliary Sanitary Association, of the Board, at its meeting held in May, 1894, and for the purpose of advancing the work of securing effective organization of the health boards of the State and of deciding upon needed legislation, to which work the Board has especially committed itself, copies of the following circular letters were forwarded to all the health officers in the State on the respective dates.

OFFICE OF THE SECRETARY. )  
SPRINGFIELD, ILLINOIS, OCTOBER 18th, 1894. }

*To the Health Officer:*

At a meeting of health officers of the State held in the City of Springfield, May 18th, 1894, an organization was effected, known as the Illinois State Board of Health Auxiliary Sanitary Association.

The object being to perfect a permanent organization, to make every sanitary officer, whether a physician or not, a corresponding member of the State Board of Health, so that the central organization may be kept in touch with the sanitary conditions prevailing in every section of the State, and enable the State Board to place in the hands of such officers sanitary information and instructions for carrying out the provisions of the laws of the State, for the protection of public health and the prevention and suppression of contagious and preventable diseases and to endeavor to secure such additional legislation as may, from time to time, become necessary. The meetings of the association were appointed to be held annually in the month of May and at such other times as might be deemed expedient, subject to the call of the State Board of Health.

The legislature, which meets this winter, will be asked to pass some new measures and to adopt amendments to the present health laws, and it has been decided that such legislative enactments can best be secured by a demonstration of the numerical strength of the Association, and also by agreeing upon what legislation is necessary after a general discussion by all interested in all parts of the State, and placing in the hands of each health officer the result of such deliberation in the shape of bills or amendments, formerly drawn, so that each one may urge upon his representative, the demand for, and necessity of, such legislation.

With this object in view, the State Board of Health, after due deliberation, has issued its call and such a meeting will be held in the City of Springfield, on the 13th and 14th days of November, 1894.

In this matter of organization, the sympathy and coöperation of the Executive of the State is assured, and if the demonstration is made worthy of the object, an organization will be effected and such legislation assured, as will result in material benefit to every portion of the State.

It is earnestly desired that every city, town or township, have one or more representatives present, and that each one come with definite, clear-cut views of the most important sanitary requirements of his locality, in particular, and of the State, in general; with his ideas of their remedy, whether by legislation, voluntary coöperation or otherwise.

Arrangements are made for the attendance of some of the most experienced sanitarians of the country, who will be present and give the association the benefit of their counsel.

Please advise the Secretary of your intention to be represented, so that arrangements can be made for reduced railroad rates and hotel accommodations.

Very respectfully,

J. W. SCOTT, M. D.

*Secretary.*

Secretary.

OFFICE OF THE SECRETARY.  
 SPRINGFIELD, ILLINOIS, OCTOBER 31st, 1894. }

*To the Health Officer:*

DEAR SIR:—Enclosed herewith you will find a programme for the meeting of the Illinois State Board of Health Auxiliary Sanitary Association, to be held in this City, November 13th and 14th. You have already been notified by circular letter of the objects of this meeting.

As you will see by the programme an effort has been made by the Board to make this as interesting and instructive as possible. Men who have been for years engaged in similar work in other states will be present, and will present matters which must be of interest to all health officers.

The Governor of the State has expressed his interest in the work, and has urged the Board to make this meeting as large and as representative as possible, and has expressed his sympathy with, and will forward the interests of the Association to the extent of his ability.

It now remains for those who are intrusted with this work in the different localities in the State, to seize the opportunity and secure legislation and organization, which is essential to future successful work.

As health officer you can contribute largely to the success of the meeting by attending in person, prepared to give the Association the benefit of your counsel and advise.

Kindly notify this office promptly of your intention to be present.

Arrangements are being made for reduced transportation on all railroads, and you should see to it, when you purchase your ticket, that you are provided with such certificate or receipt, as will entitle you to a reduction in your return rate.

The hotel rates in this City have been reduced twenty-five per cent.

Very truly yours,

J. W. SCOTT, M. D.,

*Secretary.*

Following is a copy of the programme.

TUESDAY, NOVEMBER 13.

MORNING SESSION, 10 A. M.

Address of Welcome—Gov. John P. Altgeld.

Response—William E. Quine, M. D., Pres., Illinois State Board of Health.

Best Methods of Organization—C. N. Metcalf, M. D., Secretary Indiana State Board of Health.

General Discussion.

AFTERNOON SESSION, 2 P. M.

Needed Legislation—Arthur R. Reynolds, M. D., Commissioner of Health, City of Chicago.

Report of Committee on Legislation.

General Discussion and Presentation of Proposed Legislation by Members.

WEDNESDAY, NOVEMBER 14.

MORNING SESSION, 10 A. M.

School Hygiene—Dr. Sarah Hackett Stevenson, Member Illinois State Board of Health.

Discussion, led by Hon. Henry Raab, State Superintendent Public Instruction.

Vital Statistics, and Best Methods of Collecting Same—Henry B. Baker, M. D., Secretary of State Board of Health, Michigan.

Discussion.

## AFTERNOON SESSION, 2:30 P. M.

\*Bacteriological Diagnosis of Diphtheria—Adolph Gehrman, M. D., Bacteriologist Chicago Health Department.

Discussion, led by G. N. Kreider, M. D., Springfield, Illinois, President Capital District Medical Society.

Restriction and Prevention of Communicable Disease—C. O. Probst, M. D., Secretary Ohio State Board of Health.

Discussion, led by U. O. B. Wingate, Secretary Wisconsin State Board of Health.

\*Dr. Gehrman will present the feasibility of establishing in every city and town which has a board of health, facilities for prompt and positive diagnosis of every case of diphtheria, at trifling expense.

An opportunity will be given to visit the Pathological Laboratory connected with the St. John's Hospital, Springfield, Illinois, to illustrate the possibility of carrying out the suggestions set forth in Prof. Gehrman's paper.

At the meeting which was held on the date mentioned in the call, the foregoing programme was carried out.

A full report of the proceedings has been printed in pamphlet form and a copy sent to all health officers, officers of medical associations, county clerks and others interested in sanitary work.

At this meeting a committee on legislation was appointed, and to this committee the whole matter of deciding upon the recommendations to be presented to the legislature was referred. This committee consisted of the State Board of Health, Drs. Reynolds and Brown, Chicago; and Drs. Rook, Quincy; Dyer, Ottawa; Humphrey, Galesburg, of the Auxiliary Sanitary Association. Met at the Grand Pacific Hotel, Chicago, and the following is a report of the proceedings:

MINUTES OF THE MEETING OF THE COMMITTEE ON LEGISLATION, OF THE  
STATE BOARD OF HEALTH AUXILIARY SANITARY ASSOCIATION,  
HELD AT THE GRAND PACIFIC HOTEL, DEC. 6, 1894.

The following members of the committee were present: Drs. Quine, Griffith, Vincent, Kohl, Stevenson, and Thilo, of the State Board of Health; also its Secretary, J. W. Scott, M. D., and Drs. Reynolds, Chicago; Humphrey, Galesburg; Dyer, Ottawa; and Rook, Quincy.

Upon the request of the Chairman, Dr. Quine, Dr. Griffith presided and opened the deliberations by presenting the following paper on

NEEDED LEGISLATION.

Assuming that it is the desire and purpose of those interested in local boards of health that the organization shall have some intimate relation to the State Board, and that the work of these local boards shall contribute to the general good of its sanitary work, under the advice and supervision of the State Board, the following is offered with the argument that the laws to accomplish and perfect this system of organization already exist, and only need some slight amendments to make the work satisfactory and efficient.

At a former meeting, held in Springfield, suggestions were made in a series of articles by a committee on legislation, which, after discussion, were referred to a committee for final action.

Report of this committee, and the discussion there held, is the proper basis of my paper.

"An Act to create and establish a board of health in the State of Illinois, approved May 28th, 1877, in force July 1st, 1877," embraces in sections two, three, four, five, eight and nine, matters pertaining to quarantine, registration, public health, rules and regulations for sanitary investigations, vital statistics, mortuary statistics, duties of county clerk in keeping records of births, deaths and marriages and to report them to the Secretary of the Illinois State Board of Health; also registry of physicians, midwives and itinerants in their counties. These sections read as follows:

**POWERS AND AUTHORITY OF THE BOARD:** Section 2. The State Board of Health shall have the general supervision of the interests of the health and life of the citizens of the State. They shall have charge of all matters pertaining to quarantine; and shall have authority to make such rules and regulations and such sanitary investigations as they may from time to time deem necessary for the preservation or improvement of public health; and it shall be the duty of all police officers, sheriffs, constables and all other officers and employes of the State to enforce such rules and regulations so far as the efficiency and success of the Board may depend upon their official coöperation.

**REGISTRATION OF BIRTHS AND DEATHS:** Section 3. The Board of Health shall have supervision of the State system of registration of births and deaths as hereinafter provided: they shall make up such forms and recommend such legislation as shall be deemed necessary for the thorough registration of vital and mortuary statistics throughout the State. The Secretary of the Board shall be the superintendent of such registration. The clerical duties and the safe keeping of the bureau of vital statistics thus created shall be provided by the Secretary of State.

**PHYSICIANS AND ACCOUCHERS TO REGISTER AND REPORT.** Section 4. It shall be the duty of all physicians and accouchers in this State to register their names and postoffice address with the county clerk of the county where they reside, and said physicians and accouchers shall be required, under penalty of ten dollars, to be recovered in any court of competent jurisdiction in the State, at suit of the county clerk, to report to the county clerk, within thirty days from date of their occurrence, all births and deaths which may come under their supervision, with a certificate of the cause of death and such correlative facts as the Board may require, in the blank forms furnished as hereinafter provided.

**REPORTS OF BIRTHS OR DEATHS IN ABSENCE OF PHYSICIAN OR ACCOUCHER:** Section 5. Where any birth or death shall take place, no physician or accoucher being in attendance, the same shall be reported to the county clerk within thirty days from date of (its) occurrence, with the supposed cause of death, by the parent, or if none by the nearest of kin, not a minor, or if none by a resident householder where the death shall occur, under penalty as provided in the preceding section of this act.

**COUNTY CLERKS TO KEEP REGISTERS AND RECORDS:** Section 8. The county clerks of the several counties in the State shall be required to keep separate books for the registration of the names and postoffice address of physicians and accouchers, for births, for marriages, and for deaths; said books shall always be open to inspection without fee. And said county clerks shall be required to render a full and complete report of all births, marriages and deaths to the Secretary of the Board of health, annually, and at such other times as the Board may direct.

**BOARD TO PREPARE FORMS FOR REPORTS:** Section 9. It shall be the duty of the Board of Health to prepare such forms for the records of births, marriages and deaths as they may deem proper: the said forms to be furnished by the Secretary of said Board to the county clerks of the several counties, whose duty it shall be to furnish them to such persons as are herein required to make reports.

In addition to this, chapter 24, article 76, Revised Statutes of Illinois: City Council can appoint board of health and prescribe its duties, which

comprise sanitary matters, inspection of milk, fruits and vegetables, meats, old buildings, clothing, etc.

Chapter 139, section 127, article XIV., makes the supervisor, assessor and town clerk a board of health, with full power for that township: provides that this Act "shall not apply to any town or part thereof lying within the corporate limits of any incorporated city or village." The town clerk keeps the record and reports at the annual meeting. They specifically have charge of contagious diseases in the township, can shut up any house, remove to the pest-house, can quarantine, suspend schools, prevent assemblies: and for this service the pay is a dollar and a half per day for every day employed.

Under the Criminal Code, Act of June, 1893, the Board has charge of clothing manufactured in sweat-shops, though the work is done by the health department, appointed by the city council.

Act 303-305, chapter 24, Criminal Code, the board appointed by the city council can regulate the sanitary condition of tenement houses, boarding houses, provide for sufficient air space in sleeping booths, prevent sale of unwholesome food, adulterated food, impure milk, diseased meat, adulteration of drugs, fraudulent liquors, and the State's attorney is authorized to prosecute at the instance of complainant.

Nuisances are considered and defined and provision made for abatement.

Out of the above-mentioned sections in the act organizing the State Board of Health has grown, in a series of years, the rules of the State Board of Health, outlining the work. Some of these rules may be and are insufficient, but the authority is there for making them strong and vigorous and the operation of them full and satisfactory.

In these sections there now exists authority for quarantine, in all its phases: power to abate nuisances and offensive accumulations, and even to define nuisances: power for notification, isolation and suppression: power to require notice of any civil or municipal officers of the State: notification of contagious or infectious diseases: power to regulate removal of corpses or prohibit buildings and public improvements; requires all children to be vaccinated before entering public school: provides for disinfection in the treatment of infectious and contagious diseases: it may adjust the location of a privy vault with reference to the water supply, not only for the owner, but for the neighbor and the public.

It can and does regulate railroad sanitation, both as to travel, buildings and quarantine. This relation does not cite all the authority given in this act. In some directions it is absolute. The Implied power is stronger than it could be made in specific acts and will better serve the purpose of the Board than special legislation.

These sections 2, 3, 4, 5, 8 and 9 of the act creating the Board of Health, together with acts empowering incorporated cities or villages to appoint health boards, and the act for townships not incorporated embrace all that is contained in articles 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 18 and 23 of suggestions made by Committee on Legislation to this Body, and as the implied power couched therein is safer and stronger as a basis for operation of boards of health than special acts.

It remains to provide for articles 8, 10, 15, 17, 19, 20, 21, 22 of these suggestions. The act on duties of the county clerk in relation to the State Board of Health on the subject of vital statistics and registration, in Revised Statutes of Illinois, 1893, should be amended, also the section requiring the physician to report to the county clerk a birth or death. This will appear further on in summing up matters for legislation.

It remains in this discussion to establish the relation of local boards to the State Board and how the work shall proceed and who shall have charge of the records, etc. If these boards are to be a part of the State Board the present law is amply sufficient for its organization. Let the Secretary of the State Board assist in the organization of a board of

health in every corporate town in the State according to the present law, i. e., insist upon the present corporate authorities of the town in appointing the board and sending to the State Board for working plans. Let the citizens interested be the authority, for this organization, i. e., city council, city supervisor and township officers, as by this method a board of health will be shown in harmony with the people and who can claim their support.

The written law already provides for the keeping of an accurate record of work done, prescribing penalty for failure, passing upon the duty of the local board in relation to quarantining, etc.

Amend section 8 of the act to create and establish a Board of Health for Illinois, following the last line by adding: "For which registration he shall be paid by the county five cents for each birth, death and marriage registered and reported to the Secretary of the State Board of Health."

Amend section 4 of the same act following the last line by adding "for which report to county clerk he shall be paid by the county fifteen cents for each birth reported and registered."

Amend the school law by adding "that the county superintendent shall compel all teachers and pupils, before entering schools, to present certificates of successful vaccination from a legally-made physician."

Ask the legislature to make provision for a vaccine farm in connection with the State University at Champaign, under the supervision and control of the Illinois State Board of Health. Also, that provision for analysis of water, free of charge, for the benefit of local boards and the State Board of Health be made.

#### AMENDMENTS.

Upon the conclusion of the reading of the paper by the Chairman, the amendment to section 4 having been further amended to read as follows: Amend section 4 of the same act, following the last line by adding "for each report he shall be paid by the county twenty-five cents for each birth and death reported and registered."

The section relating to the amendment of the school law was further amended to read as follows: Amend the school law by adding a section: "That he county superintendent shall compel all teachers and pupils before entering school, to present a certificate of successful vaccination from a legally-qualified physician."

The section relating to making provisions for the establishment of a vaccine farm in connection with the University at Champaign, and also for making analysis of water for local boards of health and the State Board, was further amended to read as follows: "Ask the legislature to make provision for the establishment of a vaccine farm in connection with the State University at Champaign, under the controlling supervision of the State Board of Health; also that provision for analysis of water, free of charge, for the benefit of local boards and the State Board, be made." As amended, this section was also adopted.

Upon motion, it was ordered that a recommendation be made that the laws be so amended as to provide for the compulsory appointment of boards of health in the cities and villages, and defining their duties and powers, also fixing the duties and powers of township boards.

Upon motion, the report of Dr. Griffith, as amended, was adopted as a whole.

#### ANALYSIS OF WATER AND FOOD SUPPLIES.

The following resolution, presented by Dr. Quine, was adopted:

"WHEREAS, It is a fact of familiar knowledge, that certain diseases of great fatality are caused by elements of pollution in drinking water;

WHEREAS, Such diseases are plainly preventable by proper attention to the purities of the sources of supply;

WHEREAS, Such attention can be given with maximum efficiency and minimum expense by the University of Illinois, under the direction and authority of the Illinois State Board of Health, therefore be it

*Resolved*, That the Illinois State Board of Health and its Auxiliary Sanitary Association, earnestly recommend the legislature of the State to make suitable appropriation for the establishment and maintenance of work of this kind in the Institution.

Also the following resolution:

*Resolved*, That any question as to the purity of food and medicines, be also referred for analysis to the authorities of the University of Illinois, under the direction of the Illinois State Board of Health.

Upon motion, the whole subject of legislation, was referred to a Committee, consisting of Drs. Griffith, Stevenson and Graham, also a representative of the Homeopathic School of Medicine to be appointed by the Homeopathic State Medical Society and a representative of the Eclectic School of Medicine, to be appointed by the President of the Eclectic State Medical Society, with power to act.

On motion the Committee adjourned.

#### PROSECUTIONS UNDER THE MEDICAL-PRACTICE ACT.

In the State, outside of Chicago, Wm. Whitehead, of Joliet, was prosecuted, convicted, fined one hundred dollars and fine collected. The case against Fredericka Arendt, previously reported, is still pending in the courts of McLean county. Prosecution was begun against George Martin in Danvers, but upon a statement from an attorney that he was merely carrying out the orders of a qualified physician, and that he had discontinued his connection with the institution immediately, and was at present employed in a bank in that city, the case was dismissed by the attorney with the consent of your Secretary.

Respectfully submitted,

J. W. SCOTT, M. D.,

*Secretary.*

On motion, the report of the Secretary was accepted and ordered spread upon the Book of Minutes.

The statement of expenditures for the quarter, amounting to \$3,572.59, and the report of the Treasurer were received and referred to the Auditing Committee.

#### REPORT OF COMMITTEES.

The action of the Board postponing further consideration of the Southwestern Homeopathic College of Louisville, Kentucky, and the Ohio University at Columbus, Ohio, having been rescinded, Dr. J. A. Vincent of the Committee on the Administration of the Medical-Practice Act, submitted the following report on the Southwestern Homeopathic College of Louisville, Kentucky.

On the 20th of December the undersigned visited Louisville and made a second inspection on the college equipments, appliances, etc., and found them in possession of all the apparatus named in Dr. Clokey's communication and several other things obtained since. A gynaecological room, with Yale chair and everything else necessary to operate and treat successful cases in that department.

They have added a department for teaching Histology, Pathology and Bacteriology, in charge of Professor Louis Rominger.

Dr. C. B. Harpole teaches Pathology and Physical Diagnosis, another addition since Dr. Scott made his report. Their students are required to attend the city hospital twice every week.

The College is, in the Committee appointed to investigate, sufficiently well equipped to teach all branches of medicine and complies fully with the minimum requirements of the Board and the Committee recommends that its diplomas of 1895 and subsequently, be recognized.

Respectfully submitted,

JOHN A. VINCENT.

Dr. Allison Clokey, registrar of the college, who was present, was accorded the privilege of the floor and addressed the Board in behalf of the college.

The motion to accept the report of the committee was lost, and it was

Ordered, That graduates of the Southwestern Homœopathic College be granted the certificate of the Board upon passing the supplemental examination required of colleges not complying with its schedule of minimum requirements.

At the afternoon session, the committee on the administration of the medical-practice act submitted the following report on the Ohio Medical University:

At the last meeting of the Board your committee, not being satisfied with the hospital and clinical facilities presented to them in the report, asked further time. Since then, however, your committee has received sufficient information to satisfy them that the "Ohio Medical University" is up to the minimum requirements of this Board, and would recommend that their diplomas of 1895 and subsequently be recognized.

Respectfully submitted,

JOHN A. VINCENT.

On motion of Dr. Kohl, the committee was given further time in which to make inquiries as to the requirements of the college.

REPORT OF THE COMMITTEE ON THE ADMINISTRATION OF THE MEDICAL-PRACTICE ACT ON THE INVESTIGATION OF THE PHYSIO-MEDICAL COLLEGE OF CHICAGO, IN DEC. 25, 1894.

Your committee visited this institution, which is located at the corner of Elston and Milwaukee avenues, Chicago. The college occupied a portion of the second floor, with two clinic rooms in the basement. The rooms occupied consist of a faculty-room, lecture-room, laboratory, dissecting-room, a dark-room and two clinic-rooms. In the lecture-room were found sets of anatomical charts, showing the bones, muscular system, nervous system, viscera, etc., a detachable manikin, a few prepared anatomical casts in a cabinet, instruments, a cheap obstetrical manikin, a set of Andrews' new charts on anatomy, also one on physiology and an articulated skeleton.

The lecture-room contains seats for forty students, and twenty-five students were in attendance at the time.

A laboratory is used both for chemical and bacteriological work and contains such apparatus as is required for teaching elementary chemistry, and also five microscopes of various makes, including two Bausch and Lomb instruments, suitable for bacteriological work, also sets of slides, staining fluids, etc.

The dissecting-room contains two tables. It is sufficiently well lighted and so constructed as to be easily flushed and cleansed.

The institution has no museum, and its cabinet of materia medica was admitted by the faculty to be so old and in such a condition as to

be unsuitable for the purpose of teaching. The clinic-rooms were open for the first time upon the day of the committee's visit, and no work had as yet been done in them, nor was any preparation made for the care of patients operated upon in those rooms. It was admitted by members of the faculty that no other clinical facilities were afforded the students than those received in the college building, and also that no patient has been clinically treated in the institution. It was also admitted that the school had no direct connection with any of the hospitals of the city, but that the students were admitted to the county hospital; that none of the professors of the institution were connected with the staff of said hospital. It was further admitted that a number of the professors whose names appear in the announcement of the college as connected with the institution had not delivered any lectures, and that at least one of the professors advertised to fill one of the most important chairs of the institution was, at the time, a resident of the State of Texas.

A list of the apparatus in the chemical laboratory at the time of the visit of the committee, furnished by the professor of chemistry, is attached to this report. (See report on file—Physio-Medical College files case.)

To summarize, their curriculum is weak and faulty. They are very poorly equipped in every department, and there is no evidence that the small amount of equipment or apparatus they have on hand has been used.

They have no dispensary and are without clinical or hospital facilities of any kind. Their faculty is small and some of their chairs are practically without teachers.

In view of the lack of nearly everything necessary to come within the minimum requirements of this Board, your committee would ask for further time to allow the college to complete its equipments and the committee to make a re-investigation.

Respectfully submitted,

WM. E. QUINE.  
JOHN A. VINCENT.

On motion the report was adopted.

The same committee submitted the following:

REPORT OF THE COMMITTEE ON THE ADMINISTRATION OF THE MEDICAL-PRACTICE ACT ON THE APPLICATION OF THE HARVARD MEDICAL COLLEGE OF CHICAGO (NIGHT SCHOOL) FOR RECOGNITION BY THE BOARD.

Your committee visited the Harvard Medical College October 25th, 1894, and made a thorough investigation of the premises, equipment and facilities for teaching, and present the following report:

The Harvard Medical College of Chicago, which is located at the corner of Elizabeth and Washington streets, occupies a three-story and red brick building, for which it holds a five-year lease. The college is now in the second year of its existence, having graduated at the end of its first session one student. The annual sessions of the college are of nine months duration, and four annual courses are required for graduation. The personnel of the faculty is all that could be desired. The school being the first night school which the Board has been called to pass upon, the question arises as to whether the necessary amount of instruction, clinical and didactic, can be given during the hours devoted to school work.

A tabulated statement taken from the lecture card, shows a number of hours actually devoted to such work (see original report, Harvard Medical College files case.)

The building is in every way suited to the purpose, considering the number of students. On the first floor the lecture-room, clinical labora-

tory, well equipped, and will accommodate from fifteen to twenty students working at a time: three first-class Bausch and Lomb microscopes are shown, well suited to bacteriological work.

On the second floor are hospital accommodations for a sufficient number of patients to demonstrate the progress and character of all diseases. The college is, in the opinion of the committee, sufficiently well equipped to teach all branches of medicine and complies with the minimum requirements of the Board, and the committee recommends that the diplomas of 1895 and thereafter be recognized.

WM. E. QUINE.

JOHN A. VINCENT.

The faculty promises an equipment of this college certainly satisfactory to your committee, but its clinical resources are inadequate. Your committee recommend that action defining the status of the college be postponed for one year.

The same committee submitted the following:

#### REPORT ON THE HARVEY MEDICAL COLLEGE, CHICAGO.

Your committee made an investigation on the premises, equipment and teaching facilities of the Harvey Medical College, night school, October 25th, 1894. A committee of the faculty accompanied your committee and afforded them opportunity for observing everything pertaining to the equipment of the college. The college is beginning its first year under a new charter, the institution which had been in operation for three years under the same name, having surrendered its original charter.

The college occupies quarters on the second and third floors of a business block, on Halsted and Adams streets. On the second floor a small lecture-room, with twenty seats, an articulated skeleton, a few anatomical charts on the walls, one pelvis with ligaments, one obstetrical manikin and one model of the abdominal viscera. In the rear of this room are two rooms occupied as the offices of the college, which are also the private offices of Dr. Staugh, secretary of the college. A small room in the extreme rear of the building is used for a chemical laboratory. Its equipments are meagre and could only be used for instruction in the most elementary work.

On the third floor are the large lecture room of the school, containing 44 chairs, which completely fill the space, and there are apparently no means provided for heating the room. Back of this room is the dissection room, about 13x15 feet, furnished with one table. The room has little natural light and no means is provided for artificial lighting. Further in the rear is a room used for a microscopical laboratory, about 14x16 feet, and capable for affording space for 8 or 10 students to work at once. There are three microscopes, one manufactured by the Chicago Optical Company, having a  $1\frac{1}{2}$  inch eye piece and one  $\frac{3}{4}$  and one 1-5 inch objectives: one B. & L. instrument with a 2 inch eye piece and a  $\frac{3}{4}$  and  $\frac{1}{2}$  inch objective: one Beck microscope with a  $\frac{3}{4}$ , 1 inch and 2 inch objective, also one microtome. These instruments are new, and there is no evidence in the way of prepared slides, mounted specimens, etc., to show that they have been used. There is no clinic room connected directly with the college and no evidence that any clinical instruction has ever been given to the college. The school claims that the clinics of the Kirkland Mission are accessible to and used by the students. The college is without hospital connections in hospital, which are so situated as to be of practical use to students. As the result of this investigation your Committee would recommend that the further consideration of the Harvey Medical College of Chicago be deferred for one year.

Respectfully submitted,

WM. E. QUINE.

JOHN A. VINCENT.

On motion of Dr. Kohl, the report was adopted.

On motion of Dr. Kohl, the Secretary was instructed to correspond with Rush Medical College regarding the case of James E. McConnell, and obtain all possible information and report to the Board. Also, to inform the Dean of the Louisville Hospital College of Medicine that action had been taken upon the case.

#### REPORT ON SCHOOL HYGIENE.

The Committee on School Hygiene, through Dr. George Thilo, submitted the following report, which was unanimously adopted, and the Secretary was instructed to use his discretion as to the advisability and feasibility of printing and circulating this report to the different schools in the State:

##### *To School Authorities and School Officers:*

We know by experience that, although the schools are generally understood to be places where the rising mankind receives its foundation of future usefulness and success in active life, they, at the same time, are hot beds of evils from which all kinds of misery. For the hygienic conditions under which the schools have to reach their educational goals are extremely unfavorable.

The pupils are obliged to sit motionless and to breathe constantly in rooms that are overcrowded, and filled with the germs of all kinds of infectious diseases.

Statistics based upon investigation have disclosed the fact that 35 per cent. of the pupils of the schools of the old world are sickly and retarded in their development; that short sightedness and deformities of the spine must be called specific diseases, and that habitual headache and nose bleeding, anemia and dyspepsia are increasing at a startling rate, with the growing demand on the pupils in the higher grades.

Therefore, nothing seems to be more necessary than that teachers should pay constant attention to the advice of the medical profession so that they deem it their duty not only to cultivate the acquisition of positive knowledge and of good morals and manners, but even more distinctly, to watch with the utmost care the health of their pupils.

Teachers must be thoroughly educated in all hygienic matters if they are expected to comply with all the needs and requirements of school hygiene: to avoid all danger of infection; to give ample time to healthful exercises of the body, which should take regular turns with the exercise of the mind, so that all over loading of the pupils with needless memorizing, tormenting punishment by senseless copying, solutions of wearisome problems and extravagant exertions for examination, be avoided.

It should be a live principle with all teachers that the acquisition of dead knowledge should never be gained at the cost of vital forces. That the progress of a few talented pupils should not be accelerated to the disadvantage of the less favored great majority, and that accurate observation and a logical method of thinking, are the main factors of the human mind, by means of which the children will be able to reconstruct whatever they have once thoroughly understood.

As long as this fact is not fully appreciated, by teachers, there will always prevail a tendency in school life to produce a precocious youth sickly in its very time of growth, one that has lost the faculty of free development in its later years of active life, and cannot possibly resist successfully the evils and anxieties of our daily lives.

It is by these considerations that the State Board of Health feels moved to offer the teachers of the State its sympathy and advise, which it hopes the teachers will accept, in the friendly spirit in which they tendered, and with full understanding, which alone can guarantee the success of their effort.

#### REGULATIONS AS TO SCHOOL HYGIENE. THE SITE AND CONSTRUCTION OF THE SCHOOL.

A cold and damp ground produces a number of diseases and favors the progress of others. Statistics show that it is the paramount place for strophulosis, consumption, cerebrospinal meningitis, rheumatism, various catarrhs and diarrhea diseases. A ground impregnated with organic matter, especially with human excrements, may contain the pathogenic of malaria, typhus, cholera, yellow fever, and other more rare diseases.

Hence, for a school building, being a predominate source of wide spreading epidemics, the healthiest possible site in the district should be secured.

The site should be dry and porous, either of gravel or clean sand, or crystallic stone, but should not hide in its depths a stratum of excavated stone or clay retaining stagnant water. It should be free of all organic decay, or be excavated and filled up with a suitable material.

The location should be as remote as possible from hospitals, cemeteries, factories and frequented streets. It should possess a play-ground planted with trees, which should not overshadow the windows, and a recreation hall serving during recess in the cold and rainy weather.

#### THE SCHOOL BUILDING.

The school building should face south so that the rays of the sun can enter every window.

Every wall of the building should have a damp roof course of slates, melt lead, or other durable material, impervious to beneath the level of the lowest timber at least six inches above the adjoining ground.

If a basement is there in use it must be at least half above the ground, provided with large windows, and a double damp proof course with a double wall between, having a cavity in its middle filled up with asphalt, and the floor must be cemented, then it can be used for a play ground or gymnasium.

The building should contain in each floor an ample hall and clothes room, and laboratories, separate from each class room.

The stairs should be about 6 feet wide, without winding, fire proof, having rails on each side, and after each stage of 13 or 16 steps there should be a landing.

A special stair-case should be secured for every 50 pupils. Every room should have a separate entrance by a double door, 4 feet wide and opening outwards.

The class room should form a rectangle about 3x5, but should not exceed 40x24 feet in area, this being the greatest distance in which pupils can see across to black-boards. The ceiling should be 13 to 14 feet high. Walls and ceiling should be painted in oil in light gray, the floor be varnished by coats of oil, or consist of blocks of wood with asphalted joints, placed in a bed of cement.

#### VENTILATION AND HEATING.

Scientific researches in Paris have shown that air in school-rooms is more vitiated than in the sewer of the city. While fresh air contains to 10,000 parts about 3 parts of carbonic dioxide, the school room is after attendance over filled with about 80 parts of it. Microörganism are

evolved there in an abundance of 125,000 in each cubic meter of air and an organic alcoloid expired which, injected under the skin of rabbits, produces death.

Children of minor power of resistance, confined to breathe six hours daily in this toxic atmosphere, become relaxed in their muscular system, irregular in heart action, pale in face and inattentive in mind and anaemia, headache, dyspepsia develop. This air, beside those impurities is in the same rate also saturated with the specific agencies of contagious diseases, transmittable by air, consumption, pneumonia, scarlet-fever, diphthria, small-pox, measles, whooping cough and mumps, were carried in a latent stage by pupils in the school room, establishing a veritable hot-bed of diseases, of which epidemics were spread all over the district.

Therefore a most effective aeration is a predominant factor of school hygiene. The eminent hygienist, Pettenkoffer and Pasteur, have fixed the maximum of carbonic dioxide as 7 parts to 10,000 of air as carbonic dioxide is dissolved in an amount proportionate to the quantity of organic matter evolved and constantly a fairly accurate index of the purity of the air.

In compliance with this rule every pupil must be allowed a space of 500 cubic feet air space and 2,000 cubic feet of fresh air per hour, demanding a renovation of air four times per hour.

Continous aeration at this rate can be effected during the hot season by windows, made movable in the upper panes at a horizontal axis, so that fresh air enters above, and the foul escapes below.

In winter time for continuous aeration an effective system of ventilation must be employed, either by means of pressure and suction fans, or by combination with heating. Ventilation by fans is perhaps by all arrangements most effective and porportionate in circulating air, but it is expensive and not always well managed.

A simple apparatus for rural districts combining ventilation with heating may be described in principals as follows: An open fire place or cast iron stove is surrounded by air chambers, which communicate towards the bottom by a supply pipe with the external air and by opening with the inside of the room. The air chambers are surmounted by gratings.

If the stove is heated the expanded air enters the room by the gratings, rises to the ceiling, falls to the floor at the outside walls, returns to the stove where a part escapes by the stove and chimney.

Another part, however, re-enters the air chamber by the openings below and circulates again through the room, mixed with the balance of fresh air, admitted by the supply pipe. The amount of fresh air must be so regulated as to comply with the requisite renovation of air at different degrees of heating. Other rooms may be warmed by the same stove or fire place, if they are connected by pipes with the air chambers. The advantages of this method of heating and ventilation are evident. It is simple and inexpensive, the chambers preserve the room against excessive radiation of of heat, it forms a central system of heating on a small scale and it is effective in ventilation, as air can be changed by an adequate fire place ten time per hour

For a greater number of rooms a central system, as water, steam or air heating provided with conducts for ventilation, must be furnished and several rules for satisfactory arrangements must be correctly observed.

1. All conducts must be proportionate in size and order, and the velocity of the current of air must not exceed five feet per second to avoid disagreeable draught.

2. All conducts must have a sufficient sectional area to insure the requisite ventilation during moderate heating. About five square feet must be secured, to provide fifty children with 10,000 cubic feet of fresh air with a current of five feet per second. If registers are in use, 40 per cent. for obstruction of register plate must be added.

3. The fresh air inlets and radiators must be placed under the windows and be so provided with registers or cold air dampers as to maintain the requisite circulation of air.

4. The foul air outlets must commence on the outside wall at the floor level and passing between the floor joists enter an inside wall, to be heated by joining the smoke flue, or be furnished by an exhaustive fan.

5. Every room must have an independent air outlet to prevent communication of infected air from other rooms.

The temperature in the school room should be between 68 and 70 degrees Fahr., the humidity between 50 and 60 per cent. Thermometers and hydrometers must be so placed in every room to indicate the average. During recess and at night windows must be kept open and all rooms thoroughly aired.

#### PRIVIES.

The privies should be outhouses or located in an annex of the school building, absolutely distinct for each sex. In rural districts earth closets are the best arrangements for excreta to be frequently excavated and disinfected. One pound green vitrol to one pint of water should be advisable. If the receptacle is fixed it should be at least three inches above the adjoining ground and its capacity not exceeding forty cubic feet. For application of dry earth and removal of the contents proper arrangements must be employed.

The only system fulfilling hygienic requirements in cities is the water carriage system, provided with syphon-traps and flush tanks, self-acting as seat is vacated.

The exhalation of sewer gas must be prevented by a proper construction and ventilation of the sub-soil drain. The sub-soil drain must be disconnected by an intercepting trap of any cess-pool or sewer and be provided with an air inlet pipe at the house side of the intercepting trap and continuing outside of the school building above the highest point of the roof, terminating in an air pump ventilator. All privies must be well ventilated; the floor be cemented. Boy schools must be supplied with urinals.

#### LIGHTING.

Statistics show that 10 per cent. of the pupils in lower and 25 per cent. in the higher grades become short sighted during school life.

Insufficient lighting and protracted attention to near objects is obviously the chief cause of this defect. In order to provide perfect lighting the windows should extend from four feet above the floor to the ceiling, have a total superficies of at least one sixth of that of the floor and a piece of the sky must be visible at every seat in the class room.

The windows must be supplied with blinds or double shades to prevent the direct entrance of the sunlight into the room, either above or central or below.

If artificial lighting is installed it must have a minimum intensity of light: equal to 10 meters of light for each pupil, (a meter of light is the intensity of a normal light at a distance of one meter). Electricity is mostly advisable as it surpasses all methods of lighting by its intensive and steady burning flame and absence of the products of combustion.

If gas is used the flame must be surrounded by double glass cylinders, of which the outer one removed the products of combustion to the external air and the flame should have a shade above and a milk glass below.

## DRINKING WATER.

Drinking water should be limpid, fresh, inodorous, colorless and without smell. It shall be free from all organic matter, which decomposes and becomes injurious to health, and free from all pathogenic bacteria, especially of that of typhoid fever and cholera epidemics.

In nature surface water traverses the earth, to be filtered and be rid of all those impurities in a sufficient depth. Hence the water of wells is preferable to that of running streams and lakes, but precaution should be taken to prevent contamination by surface water or direct atmospheric precipitations.

Wells should be properly located at least 60 feet distant from privies and cess pools or all places of refuse, impregnating the ground, and must be carefully built with elevated curbs and covered tops.

For examining water by a simple method take a sample of the water in a bottle cleansed by boiling water and provided with close fitting glass stopper, and a lump of loaf sugar and place it in summer temperature in the rays of the sun. If the water becomes turbid after a week's exposure organic matter has decomposed and bacteria multiplied, the water cannot be regarded as wholesome and must be boiled or filtered. Apparently pure water may, however, contain pathogenic bacteria and must be tested by experts in times of epidemics.

## SCHOOL FURNITURE.

The results of fatiguing work in schools are particularly deformities of the spine and shot sightedness, which must be prevented by properly constructed desks and seats containing upright seating as well as allowing different positions of the body. Three different sizes should be secured for each class room in which the pupils are to be placed in accordance to this bodily proprieties, so that the feet would rest conveniently at a foot board and the elbow on the desk on upright sitting. The desk and seat should be fixed to each other, so that the front seat and the desk fall in a vertical line (nil-distance). The desk should have a width of 18 inches and an inclination of one and a half to two inches. The seat must have a back rest adapted to the body and be so constructed that it sustains the lumbar region in upright posture during writing and allow a convenient backward rest. A back rest beginning at the lumbar region and provided with a spring to enable an upright and backward posture would approach this problem mostly.

## CLEANSING.

Flies and dust are peculiar bearers of contagious diseases and ought to be kept carefully out of the school building. Windows should be supplied with screens, fly-paper and cuspidors be distributed in all class rooms. Cuspidors should contain some liquid disinfectant, to prevent the excreta from drying up and spreading in the atmosphere. Mats and scrapers should be placed at every entrance of the building and the rooms inside.

Floors, walls and furniture should be daily cleansed during full aeration by wet rags and the floor scrubbed once a week. It should be strictly forbidden to spit upon the floor or to chew gum, as producing salivation and propagating consumption by spreading the germs of the disease.

It shall not absolutely be forbidden to go out in study time attending to the calls of nature, and preventing catarrh of the bladder, but this permission must be given to not more than one pupil at once.

Washing of hands should be insisted upon in the intervals of study, but all pupils affected with diseases of the eyes or skin should be strictly forbidden to use the common laboratories.

## PREVENTING MEASURES AGAINST ILLNESS.

Children showing symptoms of contagious diseases should be sent home instantly, and if really affected be precluded from school attendance until furnished with a proper certificate of a medical authority, stating that the period of infection has passed, the children be bathed, house clothing and school appliances be re-disinfected. In case of small-pox, malignant diphtheria and scarlet fever, books and writing material must be destroyed. The same rule applies to all children in the affected house in case of small-pox, scarlet fever diphtheria and measles.

Cases of contagious diseases among children should be reported by school authorities to health officers and vice versa, in order to control the thoroughness of above rule. For prophylaxis of small-pox vaccination has proved successful about the civilized world, showing approximately the same difference in the mortality between vaccinated and non-vaccinated persons.

In conformity with this statistical evidence at large in the epidemic of Chicago, 1880-1883, in 1,931 cases of small-pox, of which accurate data has been received, the mortality was 48 per cent. among non-vaccinated and 6 per cent. among vaccinated.

School authorities should, therefore, strictly supervise vaccination and admit to school attendance children only on presentation of satisfactory evidence of successful vaccination and re-vaccination in the case of an epidemic.

The period of infectiousness of contagious diseases is determined: Six weeks from the commencement of the disease for small-pox, scarlet fever and diphtheria; four weeks for typhus and whooping cough, and three weeks for measles, mumps and chicken-pox.

Children affected with suspicious diseases of the eyes and skin must be admitted to school attendance only on presentation of satisfactory evidence about the non-contagious nature of the disease.

## APPLIANCES FOR TEACHING.

Books should be printed in clear and thick-faced types, and the letters should be sufficiently large to be read by a person of normal vision at two and a half feet distance with a light placed three and a half feet from the book. The height of the smallest should not be less than 1.5 millimetre; the distance between words 2.5 millimetre; between letters, 0.65 millimetre; the length of the line be 60 millimetre.

In reading, pupils should hold their books not at a less distance than 12 inches, and in writing, their copy-books just in front of the middle of the body, a little obliquely, so that the letters are standing vertical upon an imaginary line connecting the eyes.

## HOURS FOR CLASS WORK, HOME WORK AND EXERCISES.

For higher grades the American rule, known as the three eights, approaches the right, in prescribing eight hours for work, eight hours for recreation, and eight hours for sleep. But for children below eight years the class work should not exceed eight hours daily; for children below ten years, no home work should be required; below twelve years, the home work should not exceed one hour daily.

Every hour's work should be interrupted by a recreation of ten minutes to balance intellectual work by bodily movements.

Gymnastics should occupy at least three hours a week.

## MISCELLANEOUS.

Upon presentation to the Board, by the Secretary, of evidence that he had, in accordance with the instructions issued at the last meeting of the Board, served upon D. Delta Rea. a notice in proper form that complaint had been filed against him of dishonorable and unprofessional conduct, in that he had received various sums of money, under contract to perform certain specified treatment, and that he had failed to perform said treatment and had retained said sums of money, it was was moved by Dr. Griffith that his certificate No. 10,189 be, and the same is hereby, revoked, and the Secretary was instructed to inform Dr. Rea that his certificate was no longer in force.

In the matter of the claim of the Alton road for a sum of four hundred and thirty-six (436) dollars and sixty-nine (69) cents for the construction of a culvert at Venice during the high waters of 1892, the claim was disallowed, and the Secretary was instructed to communicate with the Alton road in accordance with the facts.

In the absence of Dr. James B. McFatrigh, Dr. Thilo was appointed to act as a member of the auditing committee to audit the accounts of the last quarter.

A report of the prosecutions conducted in the city of Chicago was presented by C. A. Williams, together with the statement of certain sums due him for amounts advanced in instituting said prosecutions, said claims amounting to thirty-five (35) dollars. On motion of Dr. Griffith, the report was accepted and the claim allowed.

On motion, it was ordered that the Secretary notify the Secretary of the State Board of Health of West Virginia that the Board would co-operate with them, as requested, in their endeavor to secure free transmittal of the publications of state boards of health, and the Secretary was also instructed to join them in memorializing Congress to this effect.

On motion of Dr. Kohl, it was ordered that in the cases of persons having duplicate certificates pending, wherever the evidence was sufficient, in the discretion of the Secretary, to warrant the issuing of such certificates, that the same be issued.

The following officers were elected for the ensuing year: President, Wm. E. Quine, M. D., Chicago; secretary, J. W. Scott, M. D., Springfield; Treasurer, B. M. Griffith, M. D., Springfield.

The Auditing Committee reported that they had examined the various accounts presented by the Treasurer, had found the same correct and recommend that they be paid.

The Board then adjourned

## REGULAR QUARTERLY MEETING, CHICAGO, 1895.

The regular quarterly meeting of the Illinois State Board of Health was held at the Palmer House, Chicago, April 30 and May 1, 1895. The following members were present: President Wm. E. Quine, M. D. Members, Drs. O. O. Baines, Julius Kohl, J. A. Vincent, George Thilo, B. M. Griffith, S. H. Stevenson, and the Secretary, J. W. Scott, M. D.

The minutes of the preceding meeting were read and approved.

At the suggestion of the Secretary, sundry communications from the Committee on Administration of the Medical-Practice Act, were read, to wit:

First—An adverse report by Dr. B. M. Griffith on the claim of the Physio-Medical College of Chicago for recognition.

Second—A favorable report on the same claim by Dr. J. A. Vincent.

Third—A letter on the same subject from Dr. Oscar O. Baines, suggesting that action be delayed until the next regular meeting.

On motion of Dr. Stevenson the representatives of the Physio-Medical college were accorded the privilege of presenting their claims before the Board. Delos P. Phelps, attorney for the college, made a statement for the claims of the college.

The report of the Committee on the Administration of the Medical Practice Act was received and further consideration of the case was postponed until three o'clock p. m. of the same day.

On motion of Dr. Vincent the application of the Harvard Medical College for recognition as a college in good standing was taken up, and the following communication from Dr. Tagert, representing the college, was presented:

*To the Illinois State Board of Health:*

The Harvard Medical College of Chicago having, since the last investigation conducted by the Illinois State Board of Health November 25, 1894, added largely to its equipment and teaching capacity, and increased its clinical resources they would respectfully request that the Board again investigate the Institution, with a view of its recognition, so that the Institution may set forth in its forth coming annual announcement, that it has complied with the requirements of the Illinois State Board of Health and is recognized by the Board as in "good stading" within the meaning of the statutes. The faculty recognize that upon the recognition of the Illinois Board its success as a teaching Institution largely depends.

ALBERT H. TAGERT, *Prssident*.

During the consideration of the claims of the college, St. Clair and Stone spoke in advocacy of the college. On motion of Dr. Griffith, consideration of the claims of this college was postponed until 4 p. m.

The petition of the Harvey Medical College for recognition was next considered, and upon motion of Dr. Griffith an appointment was made for hearing the representatives of the College at 2:30 p. m.

The following resolution adopted by the Northwestern University Women's Medical School were read:

At a meeting of the faculty of the Northwestern University Woman's Medical School, the following resolutions were unanimously adopted and ordered to be placed before the Illinois State Board of Health:

**WHEREAS**, On three occasions within the past three years the Illinois State Board of Health has licensed to practice medicine in this State students who have not properly qualified themselves for such duties, and whose incompetence has compelled us to withhold the degree of doctor of medicine, and

**WHEREAS**, By common report we are informed that the State Board has adopted a similar policy with reference to numerous other persons, the be it

*Resolved*, By the faculty of the Northwestern University Woman's Medical School, that the State Board be requested hereafter to make its examinations so rigid that persons incompetent to obtain the degree of doctor of medicine from first class medical colleges cannot obtain a license to practice from the Illinois State Board of Health.

*Resolved*, That the State Board of Health be urged to do all in its power to secure a modification of the State law so that the privilege of examination for license to practice in this State can only be obtained by graduates of recognized medical schools in good standing;

*Resolved*; That for the protection of the lives and health of our people we believe it the duty of the State Board of Health to do all in its power to prevent the entrance into the Medical Profession in this State of any persons not properly qualified, and

*Resolved further*, That in the interests of humanity and medical science, we believe the State Board should make its standard of qualifications as high as that of the best medical colleges in this country, and that it should do all in its power to aid and encourage the efforts of the profession and the people for thorough medical education and higher requirements of licentiates and for the degree of doctor of medicine.

On motion of Dr. Griffith the Secretary was instructed to collect the facts in the case, and, in conjunction with a committee to be appointed by the President, to draft and publish a statement setting forth said facts. The Chair appointed Drs. Griffith, Stevenson and Kohl as said Committee.

On motion, the Board adjourned until 2:30 p. m.

Pursuant to the action of the Board at the morning meeting, the Harvey Medical College, through their representatives, Drs. Eckley, Lowe and Robinson, presented its claim for recognition. On motion of Dr. Griffith, final action regarding the application of this college was deferred pending the hearing of the claims of the Harvard Medical College, a decision upon the claims of both colleges to be rendered at the same time.

The case of the Physio-Medical College was resumed. Delos P. Phelps made an exhaustive argument in behalf of the college and examined a number of witnesses. On motion of Dr. Kohl the committee on the Administration of the Medical-Practice Act was instructed to make another investigation of the equipment of this college, and be prepared to submit its report at the next meeting of the Board.

In accordance with the agreement previously recorded, the representatives of the Harvard and Harvey Medical Colleges appeared before the Board. Dr. Dickinson and Mr. Darrow presented further arguments in favor of the recognition of the college. On motion of Dr. Kohl, the Committee on Administration of the Medical-Practice Act was instructed to re-investigate the status of both colleges and be prepared to make a report at the next meeting of the Board.

#### MEETING OF STATE MEDICAL AND STATE LICENSING BOARDS.

A communication from the secretary of the American Association of State Medical and Licensing Boards was read and received. On motion of Dr. Baines, Dr. B. M. Griffith, chairman of the Committee on the Administration of the Medical-Practice Act, was authorized to represent the Board at the meeting of the State Medical and Licensing Boards to be held in the city of Baltimore, in conjunction with the meeting of the American Medical Association, May 7th-9th.

#### RECIPRODAL RELATIONS BETWEEN LICENSING BOARDS.

The following communication from Willis P. King, M. D., secretary of the State Board of Health of Missouri, was read: No. 519.

KANSAS CITY, MO., APRIL 13, 1895.

*J. W. Scott, M. D., Secretary, State Board of Health, Springfield, Ill.*

DEAR DOCTOR:—At the second quarterly meeting of the State Board of Health of Missouri, held at the Midland Hotel, Kansas City, Mo., April 9, 1895, the question of the recognition of the certificates of the Illinois Board, granted applicants after an examination, was discussed. In other words, that the certificates be treated the same as a diploma from a recognized medical school.

I was authorized to correspond with your Board with regard to establish reciprocal relations between the two boards and the Executive Committee from our board was also authorized to act with a like committee from your Board and of the Iowa board, with a view to arranging for a uniformity of examinations in these three States, and to perfect and conclude the arrangements above mentioned.

With a view of initiating this matter, I send you the printed minimum requirements of this board and will say that our examination is extremely rigid; only five having passed out of a total of two hundred and four who have been examined.

Please advise me with regard to the following: 1st. What is the desire of your Board in this matter? 2nd. When and where would your Board prefer to have this meeting?

Very truly,

WILLIS P. KING, M. D.,

*Secretary.*

Also the following communication from J. C. Scroggs, M. D., member of the Iowa State Board of Medical Examiners:

KEOKUK, IOWA, APRIL 26, 1895.

*J. W. Scott, M. D., Secretary, State Board of Health, Springfield, Illinois.*

DEAR DOCTOR:—At the February meeting of Iowa State Board of Medical Examiners, Drs. Shrader, Becker and I were appointed a committee to confer with the boards or perhaps committees of Illinois and Missouri, with reference to adopting uniform minimum requirements of medical colleges. I had a letter from Dr. Quine some time ago in which he said he would request you to inform me of the next meeting of your Board. I to-day had a letter from the president of the Missouri board informing me of the appointment of their committee and suggesting that a meeting might be held in Chicago about May 2nd or 3rd. Will you inform me when your Board meets? An early reply will be appreciated. Our board will hold its annual meeting in Des Moines May first.

Yours respectfully,

J. A. SCROGGS, M. D.,

*Member Iowa State Board of Health.*

On motion of Dr. Vincent, action on the communication was deferred, pending the action to be taken at the forthcoming meeting of State Medical Examining and Licensing Boards at Baltimore.

*Matriculation examinations:* The Committee on the Administration of the Medical Practice Act, was instructed to confer with the authorities of the Illinois State University with a view to securing an arrangement whereby examinations of applicants for matriculation in medical colleges should be conducted by representatives of that institution.

The Board re-convened at 10:00 a. m. Wednesday.

Present as at the previous session.

The report of the Secretary for the quarter was read and is as follows:

Your Secretary respectfully submits the following report, of the work of the office, for the quarter ended April 30, 1895:

*Office work:* During the quarter ended April 30, 1895, 255 certificates were issued, entitling to practice medicine and surgery; 242 being based upon diplomas unconditionally recognized as in good standing; 11 upon the applicants having passed the supplemental examination required of graduates of schools which do not fully comply with this Board's schedule of minimum requirements; 18 supplemental examinations were conducted, 11 successfully passed and were given certificates. 7 failed and their applications were rejected. Seven applicants presented themselves for the non-graduate examination at the last meeting of this Board, 2 received the necessary percentage and were granted certificates. Six duplicate certificates have been issued, the applicants having filed satisfactory proof of the loss or destruction of their original certificates. Two applications were presented to the Board by graduates of schools not fully complying with this Board's schedule of minimum requirements, and upon being informed that they

would be required to supplement their diplomas with an examination in Practice, Surgery, Obstetrics and Gynaecology, withdrew their applications. Nine certificates were issued to midwives.

*Correspondence:* Two thousand, four hundred and ninety-one written communications were received, 1,963 were sent out; 969 reports of the Board of the different years were distributed; 2,565 preventable disease circulars and 3,350 personal vaccination certificates and 4,000 pamphlets.

Authorization for the prosecution of the following violators of the Medical Practice Act, were issued during the quarter ending April 30th: Mrs. Dora Martin, Mrs. Barbara Dougherty, Mrs. Voss, John Ledbetter, F. M. Fowler, W. D. Tomlinson, Mrs. Nancy White, James Strothers. Authorizations for the prosecution of Mrs. Wm. Semple was issued during the quarter ending January 1, 1895. She was found guilty and fined \$100. Mrs. Dora Martin was found guilty and fined \$100. Decisions have not been rendered by court in the cases of the following offenders: Mrs. Voss, F. M. Fowler, John Ledbetter, W. D. Tomlinson, Mrs. Nancy White, James Strothers, Mrs. Barbara Dougherty, has desisted from the practice of medicine and is at present attending a medical college.

The Seventeenth Annual Report of the Board being the report of 1894, was the Official Register of Physicians and Midwives, up to the time of publication, has been prepared and is now running through the press, and will be ready for distribution with the next month.

Auditing Committee submitted its report upon receipts and disbursements for the quarter, and the Secretary was authorized to draw a warrant for the payment of the accounts, amounting to \$3,814.04.

On motion of Dr. Griffith a vote of thanks was extended to Dr. A. R. Reynolds, Commissioner of Health of Chicago, for his management of the small-pox epidemic of 1894 in that city. On motion of Dr. Kohl, the Secretary was instructed to issue duplicate certificates in all cases where satisfactory proof was presented of the loss or destruction of the original.

On motion of Dr. Kohl, the Secretary was instructed to expend an amount not exceeding fifty dollars in securing an opinion from a competent attorney as to the construction of the law with reference to schools of midwifery.

On motion of Dr. Kohl the Board adjourned.

QUARTERLY MEETING, CHICAGO, 1895.

---

The regular quarterly meeting of the Illinois State Board of Health was held at the Palmer House, in the city of Chicago, June 26, 1895.

Present at the meeting: President Wm. E. Quine, M. D.; Drs. Ostor O. Baines, Julius Kohl, John A. Vincent, George Thilo, B. M. Griffith, and Sarah Hackett Stevenson, and the Secretary, J. W. Scott, M. D.

The minutes of the meeting held April 30 and May 1, 1895, were read and approved.

The report of the Secretary of the work done during the quarter was read, adopted, and is as follows:

During the quarter certificates entitling to practice medicine and surgery in Illinois were issued to 174 graduates of medical institutions recognized by this Board; 6 to graduates of institutions not fully complying with this Board's schedule of requirements, and 8 to non-graduate applicants who passed the examination of the Board at the quarterly meeting held April 30 and May 1.

Certificates have been issued to 19 midwives, upon successfully passing the examination of the Board.

Nineteen applicants presented themselves at the last non-graduate examination; 8 successfully passed.

Fifty-seven applicants came up for the midwifery examination at the meeting, 16 passing. On account of the difficulty of having translations of the Bohemian and Polish papers, the rating of these applicants, of which there were 8 each, have not, as yet, been received.

During the quarter 1,425 written communications have been received, 1,660 sent out; 2,500 circulars and 225 reports were also distributed.

Three duplicate certificates were issued by order of the Board, the applicants having filed the required proof of the loss or destruction of the original certificates, and payment of the fee required by law—five dollars.

Four applications of applicants were presented and withdrawn; two, because the applicants were required to supple-

ment their diplomas with an examination; one because he was required to pass the non graduate examination, and one because he was required to forward a diploma from a medical institution in good standing with the Board.

Two applications from midwives were withdrawn, one because the applicant could not, in accordance with the rule of the Board, take a written examination, and the other because an examination was required.

With the exception of scattered cases of small pox, the State, during the quarter, has been remarkably free from contagious and infectious diseases. No outbreaks of typhoid or scarlet fever have been reported. Diphtheria reports have been received from Pekin, Tazewell county; Jerseyville, Jersey county; Chillicothe, Peoria county, and from Equality, Gallatin county, in malignant and epidemic form.

The outbreaks of small pox reported, together with the number of cases, are as follows:

City or Town.	County.	No. of Cases.
Seatonville .....	Bureau .....	Three.
Chalfin Bridge .....	Monroe .....	Five.
Near Allendale .....	Wabash .....	One.
Champaign .....	Champaign .....	Two.
New Douglas .....	Madison .....	Two.
Urbana .....	Champaign .....	One.
Efingham .....	Efingham .....	One.
Aurora .....	Kane .....	Twelve.
Villa Ridge .....	Pulaski .....	One.
Spring Valley .....	Bureau .....	One.
Carrollton .....	Carroll .....	Two.
Makanda .....	Jackson .....	Four.

In all cases the circulars of the Board have been sent and all instructions given as to the measures to be adopted to prevent the spread of the disease. In Chicago the prevalence of small pox has continued to decline, since the last report submitted, and the facilities of the department are now such that there is no ground for apprehending a recurrence of the epidemic.

### *Suits:*

About a year ago suits were instituted by the Board against A. Arendt and Mrs. Fredericka Arendt, of Bloomington, for practicing medicine and midwifery, respectively, in violation of the law, and as before reported, Arendt was convicted and fined one hundred dollars. In the case of Mrs. Arendt, judgment was rendered in favor of the defendant. The case was appealed to the Circuit Court of McLean county and judgment again rendered for the defendant. On the advice of the attorneys of the Board, Messrs. Pollock and Condon, the case was taken to the Appellate Court, and a decision handed down reversing the decision of the lower courts and remanding the case for trial. As the decision is one of vital importance to

the Board, as clearly setting forth that midwifery is a department of medicine, and thus within the meaning of the Act to Regulate the Practice of Medicine in this State, the decision is set forth in full, as follows:

State of Illinois, Appellate Court, Third District.

*November Term, 1894.*

Agenda No. 86

Docket No. 103.

The People for use, etc.,	}	Appeal from McLean.
vs.		
Fredericka Arendt.		

*Wall, P. J.:*

This was an action of debt to recover a penalty for practicing medicine in violation of the provisions of "An act to regulate the practice of medicine in the State of Illinois," in force July 1, 1887.

The verdict was for defendant, and judgment was entered accordingly, from which the present appeal is prosecuted.

It appeared from the proof that defendant held herself out as a midwife, and practiced in that capacity. It is urged this is not a violation of the act.

We think very clearly it is.

Midwifery is an important department of medicine, and it is so recognized by the act. The law making power of the State has enacted that "no person shall practice medicine in any of its departments in this State without the qualifications required by this act." The validity of such an act is not denied—but only that the defendant had not practiced medicine within the meaning of the act. It needs no argument to show the importance of obstetrics as a department of medicine, nor the necessity that those who assume to practice in this department should possess the knowledge and skill. The welfare of their patients is certainly within the purview of the law, no less than in other departments wherein many instances at least even less care and skill may be essential and where the consequence of ignorance and unskillfulness may be less unfortunate.

The services which the defendant usually rendered were not within the exceptions of "emergency or the domestic administration of family remedies," mentioned in section 10.

The judgment will be reversed and the cause remanded.

*Reversed and Remanded:*

The expenditures during the quarter amounted to \$1,631.94, as per accounts and vouchers herewith furnished for auditing.

Respectfully submitted,

J. W. SCOTT, M. D., *Secretary.*

The Committee on the Administration of the Medical-Practice Act submitted the following report in the case of the Harvey Medical College of Chicago:

In the case of the Harvey Medical College, your Committee on the Administration of the Medical-Practice Act, respectfully reports that the committee visited the Harvey Medical College of Chicago, corner of Van Buren and Halsted streets, June 24th, 1895. The college occupies all of five flats in a business block at the above-named locality, three flats being utilized for lecture rooms, laboratories, dissecting room and operating room, the remaining two as a hospital.

The Committee found the equipment of the college in its chemical and bacteriological laboratories sufficiently well equipped for the number of students in attendance. Its hospital arrangements are such as to provide daily practical demonstrations to its students. The clinical record shows that 2,887 patients have been treated since the first of November, 1894, at the college.

Your Committee are of the opinion that the Harvey Medical College of Chicago is complying with the schedule of minimum requirements of this Board, and would recommend that its diplomas of 1896 and hereafter be recognized.

On motion of Dr. Kohl, the report of the Committee was adopted.

The same Committee submitted the following report in the case of the Harvard Medical College.

In the case of the Harvard Medical College of Chicago, located at the corner of Washington avenue and Elizabeth street, your Committee beg leave to report:

That they investigated the clinical record of the Harvard Medical College, June 24th, 1895, a lack of clinical resources, as was shown in a previous report made to this Board, being the particular in which the college had failed to meet the requirements. The record of the college shows that 310 patients for the first 24 days of the month of May, this being about the average number per month of treatment given at this college. In addition, it is but fair to state that they have added largely to their chemical equipments, having a well appointed laboratory for the number of students taught.

Your Committee would recommend that the diplomas of the Harvard Medical College, 1896 and hereafter, be recognized by the Board.

On motion of Dr. Baines, the report of the Committee was adopted.

### *Matriculates' Examinations:*

Dr. Griffith, on the committee appointed to arrange with the proper authorities of the State University for the conducting of entrance examinations to medical colleges in Illinois, by a committee of the faculty of that institution, submitted the following report:

Your Committee to whom was referred the matter of arranging with the Trustees of the State University for the examination of applicants for matriculation in medical colleges in the State of Illinois, by a committee of the faculty of that institution, would respectfully report that in answer to a communication the following letter was received from A. S. Draper, president of the institution:

CHAMPAIGN, ILL., June 15th, 1895.

DR. B. M. GRIFFITH,

*State Board of Health,*

Springfield, Ill.:

DEAR SIR:—I am in receipt of your favor of the 14th instant. I think it quite possible for the State University to make the examinations of candidates for entrance to medical colleges, and if it is we should be glad to do it. The only difficulty in the way is in relation to the expense involved. If the fees would cover the expenses, I should be glad to confer with you about it. Our Board has just had a meeting and arranged for an adjourned session in Chicago on Thursday morning, June 27th.

It is not going to be possible for me to go either to Springfield or Chicago before that time. I am

Very truly yours,

A. S. DRAPER, *President.*

CHAMPAIGN, ILL., June 18th, 1895.

DR. B. M. GRIFFITH, *Springfield, Ill.:*

DEAR SIR:—I have yours of the 17th inst. Our Board of Trustees is to meet in the Palmer House, Chicago, on Thursday morning, June 27th, at 9 o'clock. I think we can have a conference early that morning.

I have accepted entertainment for the preceding night with a friend in Chicago, and shall probably not be at the hotel early that morning, but members of the Board will be there, and I suggest that you can confer with any of them, or with Mr. Pillsbury, the Registrar. I will doubtless be there over night. The only difficulty I can see in the way of our meeting your wishes is the expense involved, and perhaps we can arrange that. I, at least, hope so.

Very truly yours,

A. S. DRAPER, *President.*

Arrangements have been made for meeting with the members of the Board in accordance with the suggestions contained in the letter of June 18th.

Our Committee would recommend that in case satisfactory arrangements can be made, the following be included in the schedule of minimum requirements for admission to medical colleges:

In lieu of these, the applicant shall present to the faculty of the college a certificate of examination by representatives of the faculty of the University of the State of Illinois.

To amend the schedule of minimum requirements in relation to medical colleges in good standing in the State of Illinois, "Section 2. On condition of admission to lecture course.

After the words "or lacking in this" a certificate from the Illinois State University, on the branches of a "good English education," comprising the subjects of reading, writing, grammar, mathematics, geography, English composition, elementary physics, natural philosophy and history.

On motion of Dr. Kohl, the report was approved.

### *National Confederation of State Medical Examining and Licensing Boards:*

Dr. B. M. Griffith, representative of the Board, at the recent meeting of State Medical Examining and Licensing Boards, made the following report:

Your representative, appointed at the last meeting of the Board, to attend and represent the Board at the National Confederation of State Medical and Licensing Boards, begs leave to submit the following report:

The meeting was held in the city of Baltimore, May 9, 1895. The adoption of a constitution and by-laws for the government of the organization was discussed, and the following were appointed a committee to draft the same: Charles McIntyre, M. D., Easton, Pa.; W. W. Potter, M. D., Buffalo, N. Y., and N. N. Payne, M. D., Albany, N. Y.

The object of the Association was also discussed and is as follows:

To establish a uniform standard of requirements for all the medical colleges and examining boards in the country.

The Association has been in existence for four years, but has heretofore had no permanent or complete organization. The meeting this year

was largely attended, fully three-fourths of the states having examining boards being represented.

The officers elected for the following year are: President, W. W. Potter, M. D., Buffalo, N. Y.; J. M. Hayes, M. D., Greensboro, N. C., Vice-President; and B. M. Griffith, M. D., Secretary, Springfield, Ill.

The selection of the time and place of the next meeting was left in the hands of the President and Secretary of the Association.

B. M. GRIFFITH, M. D.

On motion of Dr. Kohl, the report was adopted.

The Chairman on the Committee on Legislation submitted the following report:

*To the Illinois State Board of Health:*

Your Committee on Legislation begs leave to submit the following report of the matters recommended by the Board to be presented to the 39th General Assembly. A bill was passed, appropriating three thousand (3,000) dollars for the purpose of establishing, equipping and maintaining a State Vaccine Farm in connection with the State University, under the management of its trustees, and providing that the methods of propagation and a determination of the purity of the products, be submitted to the State Board of Health.

A bill was also passed providing five thousand (5,000) dollars to equip a laboratory at the State University for the purpose of making analysis of various water supplies of the State.

The matter relating to the amendment of the law so as to provide the payment of fees for the registration of births and deaths was submitted to the Committee on the Revision of the Statutes, as was also the suggestion providing that the order requiring the vaccination of school children be included in the school law, and the duty of enforcing the law be enjoined upon the county superintendents of schools.

The following bill was also introduced in the Senate, and passing the Senate, was defeated overwhelming in the House:

Section 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly: That section ten (10) of an act entitled "An act to regulate the Practice of Medicine in the State of Illinois," approved June 16, 1887, in force July 1, 1887, be amended to read as follows: Section 10. Any person shall be regarded as practicing medicine within the meaning of this act who shall treat, operate on, or prescribe for any physical ailment of another.

But nothing in this act shall be construed to prohibit services in cases of emergency, or the domestic administration of family remedies, or the practice of Osteopathy, or to commission surgeons of the United States Army, Navy or Marine Hospital service in the discharge of their official duties

Your Committee would further report that at the request of the Warden and Trustees of the Joliet Penitentiary, the Chairman of your Committee, together with the Secretary of the Board, made an examination of the Sanitary condition of the Women's Prison and the hospital at the Joliet Penitentiary, and through their recommendation the Governor caused to be made an examination, both bacteriological and chemical, of the air in these buildings. Upon the presentation of which report to the Legislature a bill was passed, providing for the erection for a new female prison within the walls of the penitentiary and also a modern hospital, the aggregate appropriation being one hundred thousand (100,000) dollars.

Very respectfully submitted,

B. M. GRIFFITH, M. D.

On motion of Dr. Kohl, the report was adopted.

*Strictures of the Chicago Women's Medical College:*

The following resolution, drafted by the Committee, appointed at the last meeting of the Board, in answer to a set of resolutions adopted and circulated by the Northwestern University Women's Medical College, were presented and read:

WHEREAS, The faculty of the Northwestern University Medical College adopted a set of resolutions, criticising the Illinois State Board of Health for having issued to three non-graduate students of said college, the State certificate entitling them to practice medicine, whom they claim were not entitled to receive them, and charging the Board with having adopted a lax policy in numerous other instances, thereby seriously distracting from the usefulness of the Board, and

WHEREAS, Although the resolutions were "ordered to be placed before the Illinois State Board of Health," they were furnished to the various medical publications of the country simultaneously with their presentation to the Board, and before the Board had opportunity to make any defense.

WHEREAS, The said college has not made any investigation of the method or policy of the Board, and could not be in possession of information upon which to found such serious charges, and

WHEREAS, The Secretary of the Faculty admitted to the Secretary of the Board that the resolutions were adopted without due consideration and were not applicable to the present Board, and

WHEREAS, In the past two years no certificate has been granted to any applicant upon an average rating of less than 80 per cent. on all branches, and the questions and examination papers and a tabulated record of all examinations are preserved, and are matters of record in the office; and,

WHEREAS, It is not in the province of the Board to adopt any policy regarding the admission to its examinations of non-graduates, the law prescribing that the "non-graduates shall submit themselves for examination," and further prescribing that "the examinations shall be of an elementary and practical character; be it

*Resolved,* That justice demands that the faculty of the Northwestern University Women's Medical College, and all others interested, inform themselves as to the methods and policy of the Illinois State Board of Health, in conducting its examinations with a view to the establishment of the charges made or of making such withdrawal, alteration or explanation of the charges as the facts may warrant; and further, that the faculty inquire as to whether any individual interest or personal animosity prompted the drafting and circulating of the resolutions.

SARAH HACKETT STEVENSON, M. D.,  
B. M. GRIFFITH, M. D.

On motion of Dr. Kohl, the committee was authorized to publish the resolutions.

At the afternoon session a number of minor and routine matters were disposed of, as follows:

Another complaint against Malok, the prolific parent of numerous Chicago "diploma mills," referred to the Secretary with power to act.

New certificate authorized to be issued to Helm Davis.

Ohio Medical University recognized as a college in good standing before the Board and Secretary instructed to recognize diplomas of that college issued to its graduates of the session of 1896 and thereafter.

Auditing Committee submitted its report upon the receipts and disbursements for the quarter, and the Secretary was authorized to draw a warrant for the payment of the accounts, amounting to \$1,631.94.

Report from the Committee on the Administration of the Medical Practice Act concerning the present status of the Physio-Medical College of Chicago, submitted as follows:

Your Committee on the Administration of the Medical-Practice-Act, to which was referred the matter of the investigation of the present status of the Physio-Medical College of Chicago, beg leave to report:

That they inquired into the status of the college, June 24, 1895, and found that the college has practically the same equipment as was reported to this Board by this committee April 30, 1895; that the supply of clinical material has been materially increased, the faculty stating that about one thousand cases had been treated since November, 1894. The faculty represented that they were about to secure two additional rooms, one to be used as a lecture room, the other for an operating room; they also assured the committee that they would enter into an agreement to so equip their chemical laboratory as to accommodate twenty students before the beginning of the next session, in such a manner as will fully comply with the requirements of the Board, an agreement to this effect to be drawn and delivered into the possession of the Board, signed by the secretary of the college, (Dr. Pechuman), and their legal representative, Delos P. Phelps, Esq.

Your committee would recommend that upon delivery into the custody of the Board of such agreement, the diplomas of the Physio-Medical College for the session 1896, and thereafter, be recognized.

On motion of Dr. Baines, it was ordered that upon the filing in the office of the Board, an agreement in conformity with the terms of the report, and the fulfillment of these conditions, that the diplomas of the Physio-Medical College of Chicago for the session of 1896, and thereafter, be recognized.

Secretary instructed to notify all medical colleges of the rule of the Board with reference to graduates in pharmacy, dentistry and veterinary science. Following is the rule:

*Resolved*, That on account of the great disparity which exists in the requirements for graduation in the colleges of dentistry, pharmacy and veterinary science in the United States and Canada, the Illinois State Board of Health declines to recognize the degree of Ph. G., D. D. S. or V. S., as the equivalent of any part of the minimum requirements fixed by the Board as characterizing a medical college in good standing within the meaning and intent of the Illinois Medical-Practice Act.

On motion, the Board adjourned.

## QUARTERLY MEETING, CHICAGO, SEPTEMBER, 1895.

The regular quarterly meeting of the Illinois State Board of Health was held at the Palmer House, in the City of Chicago, September 30th, 1895.

Present: The President, Wm. E. Quine, M. D., and Drs. Baines, Kohl, Vincent, Thilo and Stevenson, and the Secretary, J. W. Scott, M. D.

The Secretary announced that Dr. Griffith's absence was due to a serious attack of illness, which had occurred a short time previous to the meeting.

In the regular order of business, the minutes of the previous meeting, held June 25th, 1895, were read and approved.

On motion of Dr. Stevenson, the regular order of business was suspended and the representatives of the various medical colleges of Chicago, who were present by invitation, were given an audience by the Board.

At the afternoon session, Dr. N. S. Davis, Chicago, appeared before the Board in the interest of the Northwestern University School of Medicine, and addressed the Board.

The report of the Secretary for the preceeding quarter was read, approved and ordered spread upon the book of the minutes. It is as follows:

During the quarter ended 182 certificates were issued to graduates of colleges unconditionally recognized by this Board; 11 applicants presented themselves for the State certificate, but were required to supplement their diplomas with an examination in Practice, Surgery, Obstetrics and Gynaecology; 4 were successful and received the State certificate, 5 failed in their examinations and their applications were rejected. Two applications were withdrawn, 2 duplicate certificates were issued by order of the Board to physicians who presented satisfactory evidence of the loss or destruction of their original certificates.

Thirty-two midwives presented themselves for examination, 18 were successful and received the certificates, 2 withdrawn and 12 declined.

Two thousand four hundred and seventy-three written communications were received and 1,456 sent out; 900 seventeenth

annual reports were sent out, together with 125 copies of the various reports of the Board; 1,500 vaccination certificates and 900 copies of the Board's preventable disease circulars were also distributed.

During the quarter an application was received for an investigation of the status of the Woman's Medical College and Hospital, St. Louis, Missouri, with a view to its recognition. In accordance with the rule of the Board the college was notified that the Committee on the Administration of the Medical-Practice Act would visit the school, provided the institution would pay its expenses. Reply was received from Dr. George F. Hulbut, president of the college, that the college was unable at the present time to pay the expenses of the Committee and no investigation was had.

In the case of the College of Physicians and Surgeons of Keokuk, Iowa, whose diplomas were refused recognition by the State Board of Medical Examiners of the State of Iowa, the following letter was addressed to G. Walter Barr, M. D., secretary of the college:

SPRINGFIELD, Ill., Aug. 26, 1895.

DEAR DOCTOR—The recent action of the Iowa State Board of Health in declining to recognize diplomas issued by your institution as a basis upon which to issue the certificate entitling to practice medicine, together with the reasons assigned by the Board for such action, having raised a question in the minds of the members of the Illinois Board, as to whether future recognition should be extended to your college by them. The same want of equipment and teaching facilities which would disbar the school from recognition by the Iowa State Board would disbar it before this Board. It is the desire of this Board to treat all institutions fairly and with the intention of determining themselves before taking action, a committee of our Board would be willing to visit your school and investigate your equipments and teaching facilities.

It is a rule of this Board that where investigations of medical colleges outside of the State are necessary to determine the standing of the school before the Board, that the expenses of this investigation should be defrayed by the school interested.

If your school desires that such an investigation be made by this Board under the conditions above mentioned, before action be taken, the committee will visit Keokuk before the next meeting of the Board, which will occur September 30th.

Please advise me at once and you will be promptly notified at once of the time of the Committee's visit.

Very truly yours,

J. W. SCOTT, M. D., *Secretary.*

KEOKUK, Iowa, Sept. 4, 1895.

*J. W. Scott, M. D., Springfield, Ill.:*

DEAR SIR:—Your letter of recent date addressed to G. Walter Barr, M. D., has been referred to me for reply. The action of our State Board of Medical Examiners, declining to recognize our college for the session of 1894-5, was unwarranted and unjust, and was brought about by the efforts of a rival school of this place who have a member of their faculty on the Board. I send you a copy of the Constitutional-Democrat, containing a history of the case brought by the college against the Board and also a decision of the judge. This will give you an insight into the reason for their action.

We have been in existence since 1849 and have as fine facilities for teaching medicine as any school in the state. The report made to the Board of Iowa by the committee appointed secretly to visit us, was shown to be untrue in every particular where it reflected upon our facilities for teaching. We do not believe that the State Boards of other states desire to assist a rival school in injuring an old and honored institution, and we are glad to say that they are uniformly recognizing the diplomas of our school since the unwarranted action of our Board.

However, after you have examined the case set out in the newspaper sent you, if you deem it necessary to visit our school in order to determine for yourself, we will be glad to have you come, and if you inform us that it is your wish, I will arrange with the faculty about the expense of your trip.

Truly yours,

JOHN E. CRAIG, *President.*

In view of this decision and the fact that the college has heretofore been considered in good standing by this Board, acting under the advise of the chairman of the Committee on the Administration of the Medical-Practice Act, the investigation was deferred.

In accordance with the amended section of the schedule, of minimum requirements of this Board, adopted June 30, 1895, an examination of applicants for matriculation in medical colleges was held by the Committee of the Illinois State University, consisting of Prof. S. A. Forbes and Prof. A. W. Palmer, September 16 and 17, at the Palmer House, Chicago. Twenty-two candidates presented themselves of which number one was passed upon the presentation of credentials which entitle him to matriculation and four preferred to present themselves at a future examination. Of the 15 who completed the examination 9 received the necessary 75 per cent. of correct answers and were granted the certificate and six failed.

In view of the fact that it has been claimed that the announcements of many of the medical colleges were prepared and in some cases circulated, before the promulgation of this order of the Board, and in view of the further fact that other objections have been raised to the passage and enforcement of this order, and with the object of securing, if possible, the hearty coöperation of the medical colleges of the State, in arranging a plan for best securing the result aimed at in the order. The following letter has been written and sent to the Secretaries of the different medical colleges:

SPRINGFIELD, ILL., Sept, 24, 1895.

No. 69,672.

DEAR DOCTOR:—After the rule of the Illinois State Board of Health was passed requiring applicants for matriculation in medical colleges in Illinois to present certificate of examination from the Faculty of the Illinois State University, it was ascertained that the announcement of some of the colleges were already in print and that perhaps a sufficient notice could not be given to those who were to matriculate. It appears to be generally conceded by all interested that the plan of requiring a uniform examination of all applicants, conducted by persons who have no interest in the success or failure of those taking the examination, is a desirable one and will result in good to the cause of better

medical education. The Board proposes to hold other examinations during the school sessions to accommodate those who were unable to be at the last and has other plans for making the rule operative, not only in this State, if feasible, to extend its applications to colleges of other states. It is desired by the Board to accomplish this with as little inconvenience to the colleges and matriculates as possible. In order that the matter may be fully understood and the plans most satisfactory to the colleges adopted, it is desired that a representative of your faculty meet the Board at the Palmer House, Monday, the 30th at 10 a. m.

Very truly,

J. W. SCOTT, M. D., *Secretary.*

Notwithstanding the fact that protests have been filed and will be presented to the Board at its meeting against the action of the Board, claiming that it has transcended its authority in the enactment and promulgation of this rule, your Secretary, after conferring with the Attorney General of the State, is convinced that the action of the Board is entirely within the scope of its authority in requiring that each and every medical college should present evidence of the shape of a certificate of examination of their knowledge of ordinary English branches, and that this examination should be the same in all cases and should be conducted by an institution which can have no interest in the success or failure of any applicant and that the conducting of such an examination can not be better placed than in the hands of a State officer.

In order that the State Board of Health can properly discharge its duties in determining what colleges are worthy of recognition as in good standing, they should be thoroughly informed as to the qualifications of those who are admitted to the colleges to the study of medicine. This information should be as direct and definite as possible. This examination furnishes this evidence in so far as those who are required to pass an examination are concerned, but it does not furnish such information concerning those who will matriculate upon other credentials in accordance with the minimum requirements of this Board; and with a view of providing a complete record in the office of the Board, your Secretary would suggest and recommend that a further amendment be made to the schedule of minimum requirements providing that every college shall furnish to the State Board of Health a list of all its matriculates, together with a basis of their matriculation, whether upon a degree conferred by a university or college, a certificate of graduation from a high school or academy, or a teacher's certificate, and in the proper instance giving the name of the institution or officer issuing such credentials; that this list be certified and sworn to by the Dean of the college and attested by its Secretary.

Your Secretary would further recommend that the Board require of all colleges in all states, as a basis of recognition by the Illinois State Board of Health, that no applicant be matriculated except upon the presentation of credentials certified to by some properly authorized state institution or officer.

Since July 25th, communicable diseases have been reported as prevailing in the State as follows:

*Typhoid Fever:*

Typhoid fever: Springfield, Sangamon county; LaSalle, LaSalle county; Peoria, Peoria county; near Scotland, Edgar county; Arcadia, Morgan county.

*Diphtheria:*

Damainsville, Huey and Posy, Clinton county; Nokomis, Montgomery county; various points in Saline and Franklin counties; McLeansboro and other points in Hamilton county; Lawrenceville, Lawrence county.

*Scarlet Fever:*

Neponset, Bureau county, and near Scotland, Edgar county.

*Small-pox:*

Aurora, Kane county; 2 cases at Villa Ridge, Pulaski county; 2 cases at Dwight, Livingston county. No reports have been received from Chicago during the quarter.

At the present time, outside of Chicago, it is known that there is no small-pox in the State, and the reports from other states indicate that the disease has practically ceased to exist. In all of these cases the preventable disease circulars of the Board have been forwarded and instructions given for the spread of the disease.

In the vaccination suit in the case of the school district D. 4, T. 2. R. 12, Lawrence County, vs. Jennie and Jim Breen, which is a mandamus suit to compel said directors to admit the children of Jennie and Jim Breen to the public schools without evidence of vaccination, the case, as was stated in a previous report, was tried before a justice of the peace, and was decided against the school board. This decision was affirmed by the circuit court of Lawrence county, appealed by them to the appellate court, and a decision has just been rendered which decision has not been published, and which holds that the rule of the Board can only be enforced when there is reason to apprehend the spread of small-pox in a locality, but that it cannot be made a condition of attendance upon public schools.

As this is a matter of vital importance to the Board, attacking as it does, the right of the Board to make such rules and regulations as it may deem necessary for the protection of public health, provided by the statutes, your Secretary, acting under the advice of the Auditing Committee, has instructed the attorney to carry the case to the Supreme Court, and has advanced the necessary fee for that purpose.

The expenditures during the quarter have amounted to \$3,708.65, as per accounts and vouchers herewith furnished for audit.

Respectfully submitted,

J. W. SCOTT, M. D., *Secretary.*

The following letter from the Illinois State University, written by the president, was read, and on motion, was made a part of the Secretary's report:

CHAMPAIGN, ILL., Sept. 25, 1896.

*Dr. J. W. Scott, M. D., Secretary State Board of Health, Springfield, Ill.:*

DEAR SIR:—At the last session of the Legislature provision was made for a systematic survey of the waters of the State at this University, and our chemistry department has already commenced the work. Prof. Palmer has entered upon the task of collecting specimens from the lakes and streams of the State, and so far as is practicable, he will undertake to get specimens of water from wells and other sources which become the supply for cities and towns, to the end that the water supply of the State may be systematically investigated to the fullest extent possible. You will at once see how important this enterprise is to the public health of the State and how helpful it is possible for us to be to the State Board of Health in the prosecution of its work. We shall be very glad to render any service in the direction indicated which your Board may desire. If, when questions of health are involved, you will send specimens of water to our chemical laboratory, we will undertake to analyze and report upon the same as soon as practicable. That there may be some systematic plan about the matter we prefer that applications for this class of work shall, so far as possible, come through the State Board of Health. In cases where you desire an analysis made it is desired that you shall at once advise Prof. A. W. Palmer, in charge of our chemistry department, who will forthwith send to the interested parties directions as to collecting and forwarding specimens. The only expense will be that the parties interested shall pay the cost, whatever it is, of collecting and transporting.

In view of the great public importance of this undertaking it is to be hoped that the State Board of Health and the State University may act in entire co-operation,

I am very respectfully your.

A. S. DRAPER, *President.*

American Medical College of St. Louis.

W. S. Cantrall appeared before the Board in the interest of the American Medical College of St. Louis, Mo.

On motion of Dr. Stevenson, an unofficial report of Dr. Baines, member of the Committee on the Administration of the Medical Practice Act was received, read and is as follows:

*To the Illinois State Board of Health:*

At the request of the Dean of the American Medical College of St. Louis, in order that I might become acquainted with the facilities for teaching medicine which this college possesses. I visited St. Louis on the 19th of the present month. As your honorable Board has already visited and inspected the above named college, it is not necessary for me to give a minute description of the college and I only give a supplementary description of the chemical laboratory, the clinical advantages and the pathological laboratory, in which points, I believe, your honorable Board at its previous visit, had deemed this college deficient.

I found the chemical laboratory equipped for the accomodation of 22 students, each student had 20 reagents, necessary test tubes, sand baths, and other apparatus necessary for laboratory work.

The college is provided with 12 Bunsen burners; the dissecting room was ample and in good condition, being provided with six tables and necessary material for the number of students in attendance. There was an additional dissecting room for dissecting purposes which was 12 by 20 feet in size. The college has also fitted up an electrical room 12x14 feet, in

which it has one Static Atkinson 28 inch diameter battery, one Galvanic, 20 cells; one Kidder, one Galvano, Cautey battery. The upper lecture room is supplied with microscopical cabinets 24 in number, stationary, in in which there are 20 microscopes, five of which are Bausch and Lomb, each well fitted with three objectives, three eye glasses and other necessary apparatus. Three B. B. Continental, six Holecamp, Grady and More, two Queen and Co., two Bacteriological high power, Baker's of London, and two Bausch and Lomb, dissecting for microscopical work. The professor of Microscopy and Bacteriology was lecturing when I entered the room on the technique of the study, but on account of the term not being advanced, no specimen had as yet, been mounted by the class.

I was shown many specimens, however, which had been mounted by last year's class.

The college is always provided with operating tables and other apparatus, and is provided with obstetrical, anatomical, physiological and gynaecological manikins; two articulated skeltons, and one disarticulated skelton, also well supplied with surgical dressings, cabinets and charts. In regard to the clinical advantages I found two clinical rooms each 12x 16 feet. The clinical record was well kept in a book supplied for the purpose. Surgical clinics are held twice daily at the college where minor operations are performed.

All major operations are referred to various city hospitals, such as the St. Louis, with 300 beds, the Protestant Hospital, with 75 beds, and the South Side Hospital, at each of which the faculty is represented upon the staff. The clinics, both medical and surgical, average about 300 per month, so that the students, who are only forty in number, have advantages in accordance to many larger colleges.

Some new men have been added to the faculty, and I believe the college meets with the requirements of this honorable board.

I would therefore recommend that its diplomas for the year 1896 be recognized.

OSCAR O. BAINES.

On motion of Dr. Kohl, the question of the recognition of the diplomas of the American Medical College for 1896, was referred to the Committee on the Administration of the Medical Practice Act, and owing to the illness of Dr. B. M. Griffith, Dr. Kohl was appointed chairman of the committee, pro tem, for the purpose of making the necessary investigation.

### *Kentucky School of Medicine:*

The following letter was received from the Dean of the Kentucky School of Medicine, and on motion of Dr. Stevenson, was referred to the Committee on the Administration of the Medical Practice Act, with instructions to report at the January meeting:

LOUISVILLE, KY., SEPT. 23, 1895.

DEAR DOCTOR SCOTT:—As suggested in your recent letter we hereby request your honorable board to accept the diplomas of the Kentucky School of Medicine to be issued for the session of 1896, as a basis upon which to issue a certificate to practice medicine in your state. The school will conform to the requirements of your Board and the requirements of the Association of American Medical Colleges.

Professional duties have become so exacting upon my time that I have been compelled to resign the deanship of the school, to take effect October 1st. Prof. Samuel E. Woody has been elected to succeed me, and I beg to assure you and your Board that he will comply faithfully with your requirements.

Sincerely yours,

W. H. WATHEN.

The Veno Drug Company, of St. Louis, Mo., made an application for a license to vend drugs in the State of Illinois, and submitted the formulæ of their various preparations, and also copies of the advertising matter used by them.

On motion of Dr. Stevenson, the application was rejected.

On motion of Dr. Stevenson, the recognition of the Tufts Medical College, of Boston, Massachusetts, as a college in good standing for the purposes of the medical practice act, was rejected.

A petition was filed by H. A. Chase, of Madison, Wis., for a certificate entitling him to practice medicine in the State.

On motion of Dr. Baines, the application was refused.

The Auditing Committee reported that they had examined the account and vouchers for the preceding quarter, and recommended that warrants be drawn for the several amounts. The committee also recommended that a warrant for the sum of \$594.65 be drafted in favor of C. A. Williams, attorney, for legal services rendered in proceedings under the Medical Practitioner Act. It was so ordered.

On motion of Dr. Vincent, the Secretary was instructed to address a letter to the several medical colleges in the State of Illinois, stating that after a conference with representatives of the State Boards of Health of Iowa and Missouri, it had been decided that the rule requiring certificate of examination on English branches, preliminary to matriculation, should not be operative the present year.

On motion of Dr. Kohl, the fixing of the date for holding the meeting of the Illinois State Board of Health Auxiliary Sanitary Association was left to the President and Secretary of the Board.

On motion of Dr. Stevenson, the following telegram of condolence was forwarded by the Secretary to Dr. B. M. Griffith:

"Illinois State Board of Health sends greetings to an honored colleague and best wishes for a speedy recovery."

Adjourned.

FINANCIAL STATEMENT  
OF THE  
ILLINOIS STATE BOARD OF HEALTH,  
FOR THE  
FISCAL YEAR ENDED SEPTEMBER 30, 1895.

<i>State Board of Health, Dr.</i>		
<i>To State Treasurer:</i>		
Balance of regular appropriation, October 1, 1894.....	\$6,945 30	
Balance of contingent fund, October 1, 1894.....	10,000 00	
Regular appropriation to July 1, 1895, for ensuing year.....	9,000 00	
Contingent fund, July 1, 1895, for two years.....	10,000 00	
		\$35,845 30
<i>To the Treasurer of the Board:</i>		
Balance on hand October 1, 1894.....	\$3,107 07	
Office receipts for year ended September 30, 1895.....	4,408 00	
		7,515 07
		<u>\$43,360 37</u>
<i>State Board of Health, Cr.</i>		
By payment of all accounts as per itemized statement.....	\$12,727 22	
By unexpended balance regular appropriation, September 30, 1895.....	6,892 46	
By unexpended balance contingent fund, September 30, 1895.....	10,000 00	
By unexpended balance in the hands of Treasurer of Board.....	3,240 69	
Received from Treasurer of Board November, 1894.....	500 00	
By unexpended balance lapsed in State Treasury.....	10,000 00	
		43,360 37

ITEMIZED STATEMENT OF EXPENDITURES  
OF THE  
ILLINOIS STATE BOARD OF HEALTH,  
FOR THE  
FISCAL YEAR ENDED SEPTEMBER 30, 1895.

Clerical services.....	\$4,057 59	
Secretary's salary.....	3,000 00	
Legal services.....	880 72	
Incidental office expenses.....	631 79	
Dr. J. W. Scott, services in connection with Medical-Practice Act.....	500 00	
Expenses attending meetings.....	452 80	
Postage.....	443 00	
Extra clerical services.....	431 20	
Investigating medical colleges.....	318 65	
Messenger.....	262 41	
Printing.....	255 00	
Secretary's traveling expenses.....	241 49

REPORT OF THE TREASURER  
OF THE  
ILLINOIS STATE BOARD OF HEALTH,  
FOR THE  
FISCAL YEAR ENDED SEPTEMBER 30, 1895.

*To the President and Members of Illinois State Board of Health:*

GENTLEMEN:—Your Treasurer begs leave to present the following report of receipts and disbursements for the last fiscal year, ended September 30, 1895:

<i>General Account, Dr.</i>		
Balance to credit of general account October 1, 1894.....	\$3,107 07	
Received from Treasurer November 24, 1894.....	500 00	
Balance to general account November 24, 1894.....	\$2,607 07	
Received from Secretary, office receipts for the fiscal year ending September 30, 1895.....	4,408 00	
Total accountability.....		\$7,015 07
<i>General Account, Cr.</i>		
Amounts paid by order of the Board on vouchers duly audited, approved and on file for indebtedness accrued during the fiscal year ended September 30, 1895:		
Legal services and costs of suits.....	\$880 72	
Incidental office expenses.....	513 54	
J. W. Scott, M. D., services in connection with Medical-Practice Act.....	500 00	
Extra clerical services.....	276 20	
Printing and binding.....	255 00	
Investigation of medical colleges.....	213 55	
Expenses representative to Association of American Medical Colleges, San Francisco, Cal., 1894.....	177 00	
Expenses to committee meetings of members.....	138 10	
Medical and sanitary books, journals and papers.....	130 20	
Expenses April meeting and examination.....	118 70	
Expenses members and Secretary making sanitary investigations.....	91 61	
Examination of midwives.....	88 00	
Expenses matriculation examination, Chicago, September 16 and 17.....	81 00	
F. W. Reilly, M. D., indexing 15th annual report.....	75 00	
Expenses Auxiliary Sanitary Association meeting, May, 1895.....	70 60	
Per diem granted members of Board investigating medical colleges.....	70 00	
Expenses of representative meeting of Association of American Medical Colleges, Baltimore, 1895.....	63 16	
Postage.....	30 00	
Dues National Confederation of Medical Examining and Licensing Boards.....	2 00	
Total expenditures.....	\$3,774 38	
Balance, cash on hand, September 30, 1895.....	3,240 69	
		\$7,015 07

All of which is respectfully submitted.

B. M. GRIFFITH, *Treasurer.*

Audited and approved.

# OFFICIAL REGISTER.

---

PHYSICIANS.

---

---

## MEDICAL INSTITUTIONS REPRESENTED IN THE OFFICIAL REGISTER OF PHYSICIANS.

---

### "BASIS OF ISSUE" OF THE STATE CERTIFICATE.

---

In order to reduce the bulk of the Official Register, and so to keep within the number of pages (300) prescribed by the statute, sundry data heretofore given are omitted or condensed in the following pages. The most important of these changes consists in the substitution of numbers for the titles of medical institutions, examining bodies and other authority for the issue of the State Certificate. These numbers—see column "Basis of Issue"—refer to the corresponding numbers in the following list of titles.

For example, the first name in the Register has, under the heading "State Certificates" and in the column "Basis of Issue," the number "30." This indicates that the basis of issue of the State Certificate was a diploma of the institution numbered "30" in the subjoined list of titles.

1. Academy of Medicine, Paris, France.
2. Albany Medical College, Albany, N. Y.
3. American Medical College, Cincinnati, O.
4. American Medical College, St. Louis, Mo.

## CHANGES AND CORRECTIONS.

---

- Baines, Oscar O., has died. See page 191.
- Bosworth, A. W., has died. See page 191.
- Burland, Samuel Cordner, of Chicago, has removed to 546 W. Sixty-third St.
- Cook, J. H., has removed from Glen Ellyn, DuPage County, to Glencoe, Cook County.
- Dight, Mrs. M. A. G., not Diuht as on page 43.
- Doherty, David J., not Dougherty as on page 43.
- Fenn, Thomas L., not Tenn as on page 46.
- Godfrey, Julia B. D., not Julius as on page 50.
- Haley, Richard, not Hawley as on page 52.
- Herrold, Revere Hetzel, not Revere Russell as on page 55.
- Hyde, G. W., not Ayde as on page 105.
- Mackin, Michael C., not Meckin as on page 65.
- Maxfield, Carl M., has removed from Kankakee to 1173 Washington Blvd., Chicago.
- North, C. F., of Chicago, has removed to 6938 Carpenter St.
- Pinckard, Cyrus G., not Pinkard as on page 76.
- Pogue, Joseph, not Poge as on page 141.
- Randell, Leo, of Chicago, has removed to 498 Wabash Ave.
- Riley, Robert E., not Robert B. as on page 79.
- Simonton, Albert H., has removed from Charleston, Coles Co. to 42 Custom House Place, Chicago.
- Strayer, page 107 should read Strayer, Samuel S.
- Van Doren, Wm. Huber, graduated at the Eclectic Medical Institute, Cincinnati, Ohio. May 12, 1896
